¹ Given that from January 1st to October 24th 2021 the average key rate is 5.3%, from October 25th to the end of 2021 the average key rate forecast range is 7.5-7.7%. Additional information on how to interpret the proposed format of the key rate forecast communication is presented in the methodological note [http://cbr.ru/Content/Document/File/120337/comment_20210422_e.pdf].

² Banking system claims on organisations and households means all of the banking system's claims on non-financial and financial institutions and households in rubles, foreign currency and precious metals, including loans issued (including overdue loans), overdue interest on loans, credit institutions' investment in debt and equity securities and promissory notes, as well as other forms of equity interest in non-financial and financial institutions, and other accounts receivable from settlement operations involving non-financial and financial institutions and households.

Claims' growth rates are given with the exclusion of foreign currency revaluation. In order to exclude the effect of foreign currency revaluation the growth of claims in foreign currency and precious metals is converted to rubles using the period average USDRUB exchange rate. Mortgage loans net of claims acquired by banks.
