On posting operation manuals for
AWS of a BoR Customer-FMS

Information notice VN-16-4-6-1/2797 dated 06.04.2023

The Payment System Operation Centre of the Information Technology Department (hereinafter, the PSOC ITD) informs exchange participants (hereinafter, EPs) that the Bank of Russia has published operation manuals for AWS of a BoR Customer-FMS on its website http://www.cbr.ru/eng/development/mcirabis/information_FMS_clients/ in the subsection 'Documentation for the Automated Workstation of a Bank of Russia Customer Using the Financial Messaging System software package' of the section 'Automated workstation of a Bank of Russia customer using the Financial Messaging System':

'AWS of a BoR Customer-FMS. Administrator's guide.docx' ('KBR-SPFS_ADMIN.rar'),

'AWS of a BoR Customer-FMS. Operator's guide.docx' («KBR-SPFS_OPER.rar»),

'AWS of a BoR Customer-FMS. Installation and Configuration guide.docx' ('KBR-SPFS_INSTALL.rar'),

'AWS of a BoR Customer-FMS. Programmer's guide.docx' ('KBR-SPFS_PROGRAMMER.rar'),

'AWS of a BoR Customer-FMS. Information security guide.docx' («KBR-SPFS_OIB.rar»),

'AWS of a BoR Customer-FMS. Information security administrator's guide.docx' ('KBR-SPFS_AIB.rar'),

'AWS of a BoR Customer-FMS. 'Use description.docx' ('KBR-SPFS_OP.rar') (hereinafter jointly referred to as the BoR Customer software).

The updated information including the latest changes is available in the archive.

Hereby, the PSOC ITD draws the attention of EPs to the fact that the folder extracted from the '*.rar' archive contains 'hash.txt' file and '*.zip' archive. The 'hash.txt' file contains a list of the BoR Customer software controlled files and a hash code calculated with the hash algorithm in accordance with GOST R 34.11-2012.

The archive was created using WinRAR 5.50.

The PSOC ITD also reminds you that when the BoR Customer software is replicated to EPs using the system 'Bank of Russia Transport Gateway to Exchange Payment and Financial Messages with Customers of the Bank of Russia' (the 'BoR Customer TG'), two information messages will be dispatched: a notification (about replication of the BoR Customer software) and a miscellaneous message with recommendations on how to check the integrity of the BoR Customer software.

The PSOC ITD informs that the album of unified formats of electronic bank messages (UFEBM Album), version 2023.1, and the latest MEC concurrent testing stand rules are available on the Bank of Russia website http://www.cbr.ru/eng/development/mcirabis/information_fms_clients/.

This notice will be published on the Bank of Russia website at http://www.cbr.ru/eng/development/mcirabis/information_fms_clients/ in the Information notices section.
