¹ The International Investment Position of Russia is compiled on the basis of the methodology set out in the 6th edition of the IMF's Balance of Payments and International Investment Position Manual (BPM6).

Notes.

A positive sign denotes net increase in assets or liabilities; a negative sign denotes a net decrease.

Minor discrepancies between the total and the sum of components are due to the rounding of data.

¹ Data on the indicator 'Net Asset Values of Unit Investment Funds' are given for assessed assets exclusive of blocked assets. For a number of funds, net asset value estimate is used due to the fact that some unit investment funds did not calculate a number of indicators (due to the relaxation measures introduced by the Bank of Russia) from Forms 0420502/0420872 'Notes of Net Asset Values, Including Asset (Property) Value, of Joint-stock Investment Funds (Unit Investment Funds)' and 0420503 'Statement of Growth (Decrease) in Value of Property Held by Joint-stock Investment Funds (Making up Unit Investment Funds)'. The figures presented cannot be fully compared with the figures for historical periods.

¹ Following the entry into force of Bank of Russia Ordinance No. 6315-U, dated 14 November 2022, 'On the Forms, Timeframe and Procedure for Compiling and Submitting Insurance Companies' Reporting to the Bank of Russia', amendments were introduced into the methodology for compiling indicators in reporting form 0420162 'Data on the Activity of Insurers'. In particular, starting from the data for the first quarter of 2023, reporting form 0420162 shows the amount of insurance premiums under insurance contracts subject to payment over the reporting period in accordance with the terms of insurance contracts. Starting from 2023 Q1 data, in certain cases, the amount of insurance premiums may be not fully comparable with the indicators for the corresponding periods of the previous year due to the specified changes.

Note. Any discrepancies between totals and sums in the table may be due to rounding.

7. SUMMARY METHODOLOGY

Section 1. Main Macroeconomic and Monetary Indicators

Table 1.1
Balance of Payments of the Russian Federation

General Provisions

The balance of payments of the Russian Federation (hereafter referred to as the balance of payments) is a statistical statement, which reflects all economic transactions between Russian Federation residents and non-residents within a reporting period.

The table 'Balance of Payments of the Russian Federation' is compiled and published by the Bank of Russia quarterly.

Balance of payments data are used for elaborating the monetary policy of the state.

The balance of payments is compiled by the Bank of Russia based on its competence embedded in Federal Law No. 86-FZ, dated 10 July 2002, 'On the Central Bank of the Russian Federation (Bank of Russia)' (as amended), Federal Law No. 282-FZ, dated 29 November 2007, 'On Official Statistical Accounting and State Statistics System in the Russian Federation' (as amended), and provisions under Russian Federation Government Resolution No. 1226, dated 26 September 1997, 'On the Russian Federation's Adherence to the Special Data Dissemination Standard of the International Monetary Fund (IMF)', Russian Federation Government Resolution No. 849, dated 18 July 1994, 'On Procedure for Compiling and Submitting the Balance of Payments of the Russian Federation', and Russian Federation Government Directive No. 671-r, dated 6 May 2008, 'On Approving the Federal Plan of Statistical Activities'.

The methodological basis for the balance of payments is set out in the sixth edition of the IMF's *Balance of Payments and International Investment Position Manual (BPM6)*.

Sources of information are comprised of official statistics and administrative data on foreign economic transactions of Russian residents which are routinely received by the Bank of Russia from Russia's Ministry of Finance (Minfin of Russia), Federal Customs Service (FCS of Russia), Federal Service for State Statistics (Rosstat), Ministry of the Interior of the Russian Federation (MVD), Ministry of Civil Defence, Emergencies and Disaster Relief of the Russian Federation (MChS), Frontier Service of the Federal Security Service, Ministry of Energy (Minenergo), Ministry of Transport (Mintrans); reporting forms of credit institutions and other financial corporations; primary statistical data of non-financial corporations; Russia's trading partner country statistics; as well as the Bank of Russia's administrative data, own data and estimation system.

An exhaustive list of reporting forms used to compile the balance of payments and other information of reference are available on the Bank of Russia website in the section *Statistics. Macroeconomic Financial Statistics. External Sector Statistics*.

The table 'Balance of Payments of the Russian Federation' is the analytical presentation of the balance of payments, the template of which meets international standards and reflects the national-specific features of the formation of cross-border flows of goods, services and capital. The focus of this presentation is on the disclosure of capital flows by functional category. The presentation by functional category helps identify different economic behavior models of residents and non-residents and provide a statistical pattern of international economic interaction that is most relevant for the purposes of analysis and government regulation.

Balance of payments data for previous periods are revised mainly because of the updating of reports for previous periods, emergence of new information sources, methodological improvements and (or) changes in the methods of compilation of certain aggregates as well as reclassification of financial instruments (aggregates). Such an approach ensures access to the most updated data for all users of balance of payments statistics.

Balance of payments data in the analytical presentation are posted on the Bank of Russia website.

Individual Indicators Highlights

1. Current account represents a balance of transactions between Russian Federation residents and non-residents in goods and services, primary income (compensation of employees, investment income, and rent) and secondary income.

1.1. Goods and services. Recorded under this item is the net value of exports and imports of goods whose ownership rights were transferred within a reporting period from residents to non-residents (exports) and from non-residents to residents (imports), as well as the net value of services exports and imports which were provided by residents to non-residents (exports) and received by residents from non-residents (imports) within a reporting period.

The item 'Goods' aggregates are compiled using merchandise exports/imports transactions' data recorded by the FCS of Russia, as supplemented and adjusted, and used by the Bank of Russia in accordance with the aggregate compilation methodology.

1.2. Primary income represents a balance on compensation of employees (a balance on remuneration of resident workers that are temporarily employed in a foreign economy and earnings of non-residents working in the Russian Federation), investment income (a balance on income of Russian Federation residents earned on foreign financial assets owned by them (in the form of direct, portfolio and other investment) and similar income payable to non-residents resulting from their investments in the economy of the Russian Federation), and rent which reflects a balance on income receivable and payable from leasing for the use of land and natural resources.

1.3. Secondary income represents a balance on current transfers between residents and non-residents.

A transfer is an economic transaction resulting in provision without a quid pro quo by one institutional unit to another of a commodity, service, asset or ownership rights without any counterparts thereof being received in return as an equivalent. Current transfers are those that augment the disposable income and potential consumption power of a recipient country's residents, and reduce the disposable income and potential consumption power of a donor country's residents.

2. Capital account includes a balance on the acquisition/disposal of non-produced non-financial assets, as well as a balance on transactions in capital transfers between Russian Federation residents and non-residents.

Acquisition/disposal of non-produced non-financial assets reflects the acquisition and disposal of assets that are not the result of production (land and its subsoil) and (or) assets of intangible nature such as patents, copyrights, trademarks, franchising rights, etc.

Capital transfers represent large-amount transactions of irregular nature, e.g. debt forgiveness, investment grants, certain types of taxes, large-value gifts, payment and receiving of inheritance, etc.

Net lending (+) / net borrowing (-) (balance on current and capital accounts) represents the sum of current account balance and capital account balance.

3. Net lending (+) / net borrowing (-) (balance on financial account) is the residual balance on transactions with financial liabilities and assets between Russian Federation residents and non-residents. The outcome is calculated as the difference between the aggregates of net acquisition of financial assets and net incurrence of liabilities.

Net acquisition of financial assets ('+' – increase, '-' – decrease) represents the difference between an increase of residents' foreign assets and a decrease thereof resulting from financial transactions.

Net incurrence of liabilities ('+' – increase, '-' – decrease) represents the difference between an increase of residents' foreign liabilities and a decrease thereof resulting from financial transactions.

Financial assets and liabilities are classified by functional category: direct investment, portfolio investment, financial derivatives, other investment, and international reserves.

Direct investment is a category of foreign investment, which is made by a resident institutional unit of one economy with the purpose to exercise control or acquire a lasting influence on the management of an enterprise located in another economy. Direct investment relationship arises when a direct investor owns directly or indirectly equity assuring him/her 10% or more of the votes in managing the direct investment enterprise. Direct investment also includes transactions of a direct investment enterprise to acquire equity and debt instruments of its direct investor (reverse investment) and transactions between sister enterprises. Sister enterprises are those that are under the control and influence of the same direct or indirect investor, but do not have any control or influence with respect to each other.

Direct investment is accounted for in the form of equity (listed and unlisted stocks, shares, units, real estate), reinvested earnings and debt instruments (securities, loans, other debt instruments), excluding transactions with debt instruments between related financial intermediaries in the same direct investment relationship.

Portfolio investment is a category of foreign investment in negotiable debt securities and equity, excluding those that are included under direct investment and reserve assets.

Loans, cash currency and deposits include lending and borrowing transactions, transactions between residents and non-residents with cash foreign currency, transactions in current accounts (including interbank accounts) and transactions with deposits.

4. Net errors and omissions mean a statistical discrepancy, which is derived residually as net lending / net borrowing of the financial account minus the corresponding item from the current and capital accounts.

Table 1.2
External Debt of the Russian Federation

General Provisions

Definition and basic characteristics of external debt (methodological principles, information sources, information on data dissemination, etc.) set out in the comments to table 1.4 are applicable to the contents of this table.

The table's structure suggests the following institutional sectors as the main classification groupings:

- General government;
- Central bank and banks;
- Other sectors.

Data on debt liabilities to direct investors and direct investment enterprises of the *Central bank and banks*, and *Other sectors* are reflected within respective qualification groups.

For each qualification group, data are classified by type of debt instrument.

Individual Indicators Highlights

Individual indicators' characteristics under *General government*, *Central bank and banks*, and *Other sectors* broadly correspond with these indicators' characteristics set out in the comments to table 1.4.

General government. This category is represented with the Federal government's indebtedness detailed by type of creditor.

Table 1.3
External Debt of the Russian Federation
in Domestic and Foreign Currencies by Maturity

General Provisions

Definition and basic characteristics of external debt (methodological principles, information sources, information on data dissemination, etc.) set out in the comments to table 1.4 are applicable to the contents of this table.

The table's structure suggests the following sectors as the main classification groupings:

- General government;
- Central bank and banks (excluding debt liabilities to direct investors and direct investment enterprises);
- Other sectors (excluding debt liabilities to direct investors and direct investment enterprises).

Data on debt liabilities to direct investors and direct investment enterprises of the *Central bank and banks*, and *Other sectors* are grouped separately.

Further level of detailing external debt is achieved by breaking it down into domestic and foreign currencies-denominated liabilities. Then data are classified by maturity as short-term liabilities (with original maturity of one year or less) and long-term ones (with original maturity exceeding one year).

Individual Indicators Highlights

Individual indicators' characteristics under *General government*, *Central bank and banks*, and *Other sectors* correspond with these indicators' characteristics set out in the comments to table 1.4.

Table 1.4
External Debt of the Russian Federation
by Maturity and Financial Instruments

General Provisions

External debt (according to international methodology) as of the reporting date represents an outstanding amount of actual current, and not contingent, liabilities of residents of the Russian Federation to nonresidents which requires payment(s) of principal and (or) interest at some point(s) in the future.

Information on the external debt of the economy is very important for analyzing its sustainability to external shocks.

Methodological and conceptual basis for external debt statistics is set out in the joint document of a group of international organizations *External Debt Statistics: A Guide for Compilers and Users, 2013* and also in the sixth edition of the IMF's *Balance of Payments and International Investment Position Manual (BPM6)*.

The key characteristic of debt is the obligation of a debtor to make payment of principal and (or) interest. Therefore, external debt does not include guarantees, open lines of credit, and other contingent liabilities, financial derivatives, and equity instruments as well. Notable exceptions are preferred shares owned by non-residents, which are classified as an external debt component and are included as debt securities.

External debt data under the international methodology cover the indebtedness of all sectors of the economy of the Russian Federation to non-residents, irrespective of the currency of the debt's denomination.

The table's structure suggests the following institutional sectors as the main classification groupings:

- General government;
- Central bank and banks (excluding debt liabilities to direct investors and direct investment enterprises);
- Other sectors (excluding debt liabilities to direct investors and direct investment enterprises).

Debt liabilities to direct investors and direct investment enterprises of *Banks* and *Other sectors* are categorized separately.

Further level of detailing external debt is achieved by breaking it down by maturity as short-term (with original maturity of one year or less) and long-term (with original maturity exceeding one year).

Then data are classified by type of debt instruments (debt securities, loans, trade credits, current accounts and deposits, other debt liabilities).

Information sources include official statistics and administrative data from Russia's Ministry of Finance, FCS of Russia, other ministries and agencies, local governments; reporting from credit institutions, non-credit financial corporations, depositories; primary statistical data from non-financial organizations; data of international financial organizations; and administrative data (and estimates) of the Bank of Russia.

Data for previous reporting dates are revised mainly due to the following reasons: updating of reports for previous periods,

emergence of new information sources, methodological improvements and (or) changes in the methods of compilation of certain aggregates as well as reclassification of financial instruments (aggregates).

External debt statistics of the Russian Federation are available on the Bank of Russia website.

Individual Indicators Highlights

General government. This category includes external indebtedness of the federal government which has originated in the period since 1992, i.e. the new Russian debt, and indebtedness which had been contracted prior to 1992 and was assumed by the Russian Federation as the legal successor of the USSR, i.e. the debt of the former USSR, and also the indebtedness of local governments to non-residents under contracted credits and issued debt securities.

The new Russian debt includes drawings from the IBRD, EBRD, other international organizations and governments of foreign states, indebtedness to non-residents under Eurobonds issued by the Government of the Russian Federation, and also the debt owed to the London Club creditors. Other liabilities include external debt under current transactions.

The debt of the former USSR includes borrowings from former socialist countries and other official creditor countries as well as the remaining liabilities under merchandise supplies' credits and interest on arrears, which are classified as other liabilities.

Debt securities. This aggregate contains data on indebtedness to non-residents on securities issued by Russia's Ministry of Finance and local governments and denominated in foreign currencies and rubles. Government securities are estimated at face value.

Loans, currency and deposits include data on indebtedness under loans drawn from non-residents by the Government of the Russian Federation, local governments, and the Government of the former USSR.

Other liabilities include the indebtedness under current transactions of Russia's Ministry of Finance, interstate indebtedness under clearing arrangements, and also the remaining liabilities under merchandise supplies' credit and interest on arrears, which are classified as other indebtedness.

Central bank and banks (excluding debt liabilities to direct investors and to direct investment enterprises). This category includes external debt liabilities of the Bank of Russia and credit institutions (except non-bank credit institutions which are covered within *Other sectors*) and of the State Development Corporation VEB.RF (for the part of its commercial activity) to non-residents. External indebtedness under state credits, which is maintained on the books of the State Development Corporation VEB.RF due to its fulfilment of the functions of the official agent of the Government of the Russian Federation, is included in the liabilities of the general government.

Debt securities represent indebtedness to non-residents on debt securities issued by banks. Securities are recorded at fair value.

Loans, currency and deposits include data on the Bank of Russia's and banks' indebtedness to non-residents under securities' repurchase agreements conducted without change of ownership (direct repo). The aggregate also includes banks' indebtedness to non-residents on current accounts, short- and long-term deposits, other borrowed funds drawn from non-resident banks and the Bank of Russia's indebtedness to non-residents on current accounts, and also the Bank of Russia' estimate of non-residents' cumulative holdings of cash Russian rubles (commentary to compilation of this component is available on the Bank of Russia website under directory Statistics. IMF Special Data Dissemination Standard. Metadata).

Other liabilities represent banks' and the central bank's indebtedness to non-residents on declared dividends payable on common and preferred shares, which are classified as portfolio investment, and indebtedness which originated as a result of a transfer of claims by a resident to a non-resident, and liabilities of the Bank of Russia which have accumulated in the course of SDR allocations to the Russian Federation.

Other sectors (excluding debt liabilities to direct investors and direct investment enterprises). This category contains data

on external funds' drawings with detailed liabilities of other financial corporations (excluding banks) and liabilities of non-financial corporations, households and NPISHs.

Debt securities represent indebtedness to non-residents on debt securities issued by non-financial corporations and other financial corporations (excluding banks). Debt securities are recorded at face value. They include bonds, notes, non-voting preferred stocks which do not give the right to participate in the distribution of the residual value of an enterprise at its liquidation, and also mortgage claims on individuals owned by non-residents.

Loans and deposits include indebtedness under credits received from non-residents, including under direct repos, non-residents' current accounts with non-bank credit institutions, and financial leases.

Other liabilities cover indebtedness to non-residents on declared dividends payable on common and preferred shares, which are classified as portfolio investment, liabilities of insurance companies and indebtedness, which originated as a result of a transfer of claims by resident to non-resident, and accounts payable to non-residents associated with goods' supplies and provision of services.

Debt liabilities to direct investors and to direct investment enterprises. The item includes debt liabilities vis-à-vis non-residents associated with banks, other financial corporations (excluding banks) and non-financial corporations within the framework of direct investment relationship, and also indebtedness on declared dividends payable to foreign direct investors.

Table 1.5
International Investment Position
of the Russian Federation. Main Components

General Provisions

International investment position is a statistical statement that shows at a point in time the value of financial assets of residents of the Russian Federation representing claims on non-residents and gold bullion held as reserve assets, and of liabilities to non-residents of the residents of the Russian Federation. The difference between external financial assets and liabilities is the net investment position, which may be positive — indicating that the Russian Federation is a net creditor to the rest of the world — or negative — indicating that the Russian Federation is a net borrower.

Information presented in the international investment position is very important for the analysis of the economic situation of the Russian Federation.

International investment position is compiled and disseminated quarterly. Methodological basis for compilation of the components of the table is set out in the sixth edition of the IMF's *Balance of Payments and International Investment Position Manual (BPM6)*.

Information sources include reports from Russia's Ministry of Finance, Federal Customs Service, other ministries and agencies, international financial organizations, local governments, credit institutions, noncredit financial corporations, nonfinancial corporations, partner countries' data, as well as own data and estimation system of the Bank of Russia.

International investment position data for previous periods are subject to revision, mainly due to the following reasons: changes in the reported data, availability of data from new sources of information, improvements of methodology and (or) compilation techniques of certain components, reclassification of instruments (indicators).

International investment position statistics of the Russian Federation are available on the Bank of Russia website.

Individual Indicators Highlights

Financial assets and liabilities of residents of the Russian Federation are the major classification groupings presented **on the left of the table**.

Further breakdown of assets and liabilities is made as follows:
— by functional category direct: investment, portfolio investment, financial derivatives, other investment, international reserves (reserve assets);

— by financial instrument: equity and investment fund shares, debt securities, loans, cash currency and deposits, etc.

Data on the value of external assets and liabilities of Russian residents as of the date of the reporting period are presented **on the top of the table** as follows.

Special Valuation Cases

External assets and liabilities are valued primarily at market prices.

Balances on debt securities' stocks including securities issued by the general government sector are valued taking into account the accrued coupon interest.

Data on accrued balances under loans, including trade credits, are reflected at amortized values.

Monetary gold is valued at the current price quotations set by the Bank of Russia.

Table 1.6
Merchandise Trade of the Russian Federation
(per Balance of Payments Methodology)

General Provisions

The table includes monthly data on the merchandise trade of the Russian Federation (according to the balance of payments methodology) broken down by the CIS country and non-CIS country before 2021. In 2022, the publication of data by the group of countries was suspended. The information is published in millions of US dollars.

Data provided in the table "Merchandise Trade of the Russian Federation" are included in the current account of the balance of payments and are compiled in accordance with the sixth edition of the International Monetary Fund's Balance of Payments and International Investment Position Manual (IMF's BPM6 methodology).

The sources of information are the reporting data regularly received by the Bank of Russia from the FCS of Russia, Rosstat and other ministries and agencies, credit and nonfinancial institutions, partner countries' data and own Bank of Russia's system of estimates.

Data on external merchandise trade are published in the Bank of Russia's weekly publication Bank of Russia Bulletin, and are posted on the Bank of Russia official website.

Individual Indicators Highlights

Exports of goods (per balance of payments methodology) represent movement of (i) goods out of the customs territory of the Russian Federation recorded by the Federal Customs Service in accordance with the general trade system, and (ii) goods not registered by the FCS of Russia — namely, goods procured by foreign carriers in Russian ports; goods exported by individuals; goods sold to nonresidents without crossing Russia's customs border including fish and marine products caught in the high seas; other goods whose economic ownership is transferred from residents to nonresidents; net exports of goods under merchandising abroad.

Goods sent for processing under special customs procedures are excluded from exports of goods registered by the FCS of Russia.

Imports of goods (per balance of payments methodology) cover (i) goods brought into the Russian customs territory and recorded by the Federal Customs Service in compliance with the general trade system, and (ii) goods not registered by the FCS of Russia — namely, goods procured by Russian carriers in foreign ports; goods undeclared and/or inadequately declared when imported by legal entities; goods imported by individuals; goods acquired by residents without crossing Russia's customs border; other goods whose economic ownership is transferred from nonresidents to residents.

Goods under processing under special customs procedures are excluded from imports of goods registered by the FCS of Russia.

Merchandise exports and imports are presented in f.o.b. prices (under the f.o.b. terms of goods' sale, the merchandise price includes its cost and expenses on insurance, delivery and

loading of the goods aboard the means of transport at the border of the exporter's country).

Merchandise trade balance is defined as the difference between exports and imports of goods.

Table 1.7
International Reserves of the Russian Federation

General Provisions

A country's **international reserves (reserve assets)** are those external assets that are readily available to and controlled by monetary authorities for meeting balance of payments financing needs, for intervention in foreign exchange markets to affect the currency exchange rate, and for other related purposes (such as maintaining confidence in the currency and the economy, and serving as a basis for foreign borrowing). Reserve assets must be foreign currency assets and assets that actually exist. International reserves should be assets of high quality.

The international reserves of the Russian Federation are highly liquid external assets that are readily available to the Bank of Russia and the Government of the Russian Federation.

Data are compiled on the basis of definitions contained in the sixth edition of the IMF's *Balance of Payments and International Investment Position Manual (BPM6)*, and the IMF's *International Reserves and Foreign Currency Liquidity: Guidelines for a Data Template (2012)*.

Transactions are recorded as of the value date with interest accrued.

Values are converted to US dollars using official exchange rates of foreign currencies in terms of the Russian ruble and gold reference prices set by the Bank of Russia and effective on the reporting date.

Individual Indicators Highlights

The international reserves consist of foreign exchange, SDR holdings, reserve position in the IMF and monetary gold.

Foreign exchange includes foreign currency; balances on nostro corresponding accounts including unallocated gold accounts; deposits with the initial maturity of up to 1 year including gold deposits, with foreign central banks, the Bank for International Settlements (BIS) and nonresident deposit-taking corporations; debt securities issued by nonresidents; loans extended under reverse repo agreements, and other financial claims on nonresidents with the initial maturity of up to 1 year.

Securities received as collateral under reverse repos or under securities' lending agreements (received in exchange for other securities), are not included in international reserves. Securities provided to counterparties under securities' lending transactions are recorded in international reserves, whereas securities that serve as collateral under repurchase agreements are excluded therefrom.

Part of resources of the sovereign funds of the Russian Federation, which is denominated in foreign exchange, deposited with the Bank of Russia and further invested by the Bank of Russia in foreign financial assets, is included in the international reserves of the Russian Federation.

Foreign exchange-denominated claims of the Bank of Russia and the Government of the Russian Federation on residents are not included in the international reserves of the Russian Federation.

Special drawing rights (SDRs) are international reserve assets created by the IMF and allocated to members; included are balances of SDR holdings on the account of the Russian Federation in the Fund's SDR Department.

Reserve position in the IMF is the sum of the reserve tranche position (representing foreign exchange component of the quota of the Russian Federation in the Fund) and the country's claims on the IMF arising from lending under the New Arrangements to Borrow.

Monetary gold is defined as standard gold bars and coins with a purity of at least 995/1,000 held by the Bank of Russia and the Government of the Russian Federation. It comprises gold in vault, en route and in allocated accounts, including those that are held abroad.

Table 1.8
International Reserves and Foreign Currency
Liquidity – Russia

General Provisions

The template recommended by the IMF is meant to provide exhaustive information on the official assets of the Russian Federation in foreign currency and movements of these resources related to different claims and obligations of monetary authorities in foreign currency for the 12 months following the reporting date. In the template data is presented on balance and off-balance sheet transactions of monetary authorities in foreign currency, and supplementary information.

Data is published in terms of millions of US dollars. Foreign exchange assets are converted to US dollars using cross exchange rates of foreign currencies for the US dollar as of the given date.

Blank fields in the tables signify the absence of respective financial instruments as of the reporting date.

Data sources for International Reserves and Foreign Currency Liquidity are: balance sheet and off-balance sheet data of the Bank of Russia, operational reports of the Bank of Russia and the Ministry of Finance of the Russian Federation.

Individual Indicators Highlights

Section I **Official Reserves Assets and Other Foreign Currency Assets** provides information on the structure of Russia's international reserves as well as data on the non-reserve foreign exchange assets of monetary authorities. Comprehensive description of international reserves is given in the methodological comments to the table 'International Reserves of the Russian Federation'. Other foreign currency liquidity represents assets of the Bank of Russia and the Ministry of Finance of the Russian Federation that do not meet the requirements for international reserves. Unlike reserve assets, non-reserve assets do not need to be external assets. They can be claims on residents.

Section II **Preetermined Short-term Net Drains on Foreign Currency Assets** describes the main directions of expenditure of foreign currency and sources of inflows of foreign currency.

Section III **Contingent Short-term Net Drains on Foreign Currency Assets** involves information on forthcoming changes in foreign exchange reserves of the Bank of Russia and Ministry of Finance of the Russian Federation as a result of exercising contingent assets and liabilities with remaining maturities of one year and transactions in options.

Reference data in Section IV **Memorandum Items** provides an explanation of the indicators recorded in Section I, reserves' currency composition by groups of currencies being disclosed.

Table 1.9
International Reserves Adequacy
(International Reserves in Months of Import)

General Provisions

Reserves adequacy is determined by comparison of the actual amount of the international reserves in months of imports of goods and services and the international benchmark reserves adequacy.

Individual Indicators Highlights

The international benchmark reserves adequacy is equal to three months.

The actual amount of international reserves in months of imports is calculated as the ratio of the amount of international reserves of the Russian Federation at the end of a reporting quarter to the average monthly import of goods and services for the last four quarters.

For example, the actual amount of the international reserves in months of imports for the first quarter of 2016 will be the ratio of the amount of the international reserves of the Russian Fed-

eration on 1 April 2016 to the average monthly import of goods and services for the period Q2–Q4 2015 – Q1 2016.

The indicator is disclosed on a quarterly basis no later than four months after the end of the reporting quarter.

Central Bank Survey, Credit Institutions Survey, Banking System Survey, Other Financial Institutions Survey, Financial Sector Survey

Central Bank Survey, Credit Institutions Survey, Banking System Survey, Other Financial Institutions Survey, Financial Sector Survey are compiled in accordance with the international statistical standards on macroeconomic indicators (*Monetary and Financial Statistics Manual (IMF, 2000)*, *Monetary and Financial Statistics Manual and Compilation Guide (IMF, 2016)*) under which monetary indicators are presented across financial instruments and economy sectors in rubles and foreign currency.

This data presentation is applicable for an analysis of money supply and its structure, and the relationships of financial intermediaries with other sectors of the Russian economy also as with nonresidents.

The 'Central Bank Survey', 'Credit Institutions Survey' and 'Banking System Survey' are published by the Bank of Russia on a monthly basis while the 'Other Financial Institutions Survey' and 'Financial Sector Survey' are published quarterly.

Data can be updated in the course of quarter (final data for December can be updated in the course of half a year). The final data are published in the Bank of Russia's monthly *Bank of Russia Statistical Bulletin*.

Table 1.10
Central Bank Survey

General Provisions

The sources of information to compile the Central Bank Survey are the Bank of Russia's balance sheet, the invoices breakdown of the Bank of Russia's aggregated balance sheet, the data on international reserves of the Russian Federation, nonreserve assets and liabilities, monetary authorities' foreign assets and liabilities structure, public corporations deposits, budgetary funds in organizations – indirect recipients of budget, shares on market value, credit institutions liabilities on repurchase agreement, finance relationship with the International Monetary Fund.

This indicator includes amounts on credit institutions' accounts which cannot be used during a certain period according to terms of contract or current terms of the credit institution's activities (e.g.: clients' accounts reserved for conducting transactions in purchase/sale of hard currency, clients' funds related to incomplete settlement operations, and also all deposits of Russian Federation residents with banks with revoked licenses).

Debt securities excluded from broad money comprise financial instruments issued by credit institutions and representing similar money substitutes, i.e. bonds, bills and bank acceptances circulating outside the banking system.

Shares and other equity are the own funds of credit institutions. They include authorized and supplementary capital, special, reserve and other funds formed through profits, results of revaluation of securities, precious metals and funds in foreign currency, current year financial results and profits and losses of previous years.

Other items (net) comprise assets and liabilities, which are not included in the above-mentioned aggregates. **Escrow accounts of households** comprise funds for the contracts for participation in shared-equity construction and for purchases of real estate.

Table 1.12
Banking System Survey

General Provisions

The table presents results of the consolidated data of the banking system (see 'Central Bank Survey' and 'Credit Institutions Survey'). The consolidation is made by subtracting the intersectoral claims and liabilities between credit institutions and the Bank of Russia and summing up their operations with other sectors of the economy and nonresidents.

Individual Indicators Highlights

Net foreign assets comprise assets and liabilities transactions made by monetary authorities and credit institutions with nonresidents in national and foreign currency and precious metals.

Net claims on general government represent the banking system's claims on the Russian Federation government, fiscal

authorities of the Russian Federation constituent entities and local authorities, government extrabudgetary funds and other extrabudgetary funds less the banking system's liabilities to general government.

Claims on other sectors include claims of banking system institutions on other financial institutions and nonfinancial organizations and claims on households in national and foreign currency. The only instrument marked out among total amount of claims on other sectors is loans.

Claims on other financial institutions comprise credits (including arrears and overdue interest) extended by the banking system to other financial institutions in national and foreign currency, investments in securities of other financial institutions and other accounts receivable of mentioned organizations.

Claims on nonfinancial organizations comprise credits (including arrears and overdue interest) extended by the banking system to nonfinancial organizations in national and foreign currency, investments in securities of nonfinancial organizations and other accounts receivable of mentioned organizations.

Claims on households comprise credits (including arrears and overdue interest) extended by the banking system to individuals and individual entrepreneurs in the national and foreign currency.

Broad money liabilities include currency outside the banking system and deposits of the Russian Federation residents (organizations and individuals) in rubles and foreign currency classified by the level of liquidity as transferable deposits (comprising funds that can be immediately used as means of payment), and other deposits (comprising resident organizations' deposits that are not directly used as means of payment), and also debt securities such as certificates of deposit and saving certificates issued by credit institutions.

Money supply (national definition) includes all cash and deposits of the RF resident other financial (except for credit ones) institutions and nonfinancial organizations, and the RF resident households with the banking system of the RF in rubles (see comments to the table 'Money Supply (National Definition)').

Currency outside banking system includes currency issued by the Bank of Russia into circulation less currency holdings (cash vaults) of the Bank of Russia and credit institutions.

Transferable deposits include current and other demand accounts (including bank card payment accounts) opened by the Russian Federation residents (organizations and individuals) with the Bank of Russia and operating credit institutions in national currency.

Other deposits include the Russian Federation residents (organizations and individuals) time deposits and other funds in national currency attracted by the Bank of Russia and operating credit institutions, and also all types of deposits in foreign currency, precious metals accounts, and interest accrued.

Data on transferable and other deposits include **deposits of other financial institutions, deposits of nonfinancial organizations and deposits of households**.

Debt securities included in broad money comprise funds held by the Russian Federation residents (legal entities and households) in certificates of deposit and saving certificates issued by credit institutions.

Deposits excluded from broad money represent funds of the Russian Federation residents on accounts with credit institutions, which in accordance with the definition are not included in money supply.

Debt securities excluded from broad money comprise financial instruments issued by credit institutions that are close on money substitutes (bonds, bills and bank acceptances outside the banking system).

Other items (net) comprise assets and liabilities, which are not included in the above-mentioned aggregates. **Escrow accounts of households** comprise funds for the contracts for participation in shared-equity construction and for purchases of real estate.

¹ Equivalent to the indicator 'Broad money'.

Table 1.13
Money Supply (National Definition)

General Provisions

The table contains information on the amount, structure and dynamics of the M2 aggregate, a major monetary aggregate used in elaborating the economic policy and setting quantitative macroeconomic targets. The money supply is defined as the sum total of funds in the Russian Federation currency, intended for use as payment for goods, work and services and for the accumulation of savings by resident nonfinancial organizations and financial institutions (except for credit ones) and households.

The source of information for the calculation of the money supply is data of the monthly consolidated balance sheet of Russian credit institutions and the Bank of Russia consolidated balance sheet (the calculation includes obligations of credit institutions and the Bank of Russia to economic agents), reporting form O409110 'Breakdowns of certain indicators of the credit institutions activity', report of the management companies 'The calculation of market value and net value of assets in which pension savings are invested'. In addition to being published in the *Bank of Russia Statistical Bulletin*, information on the amount, structure and dynamics of the money supply is available on the Bank of Russia's website.

Individual Indicators Highlights

Cash in circulation (M0 monetary aggregate) is the most liquid part of the money supply, accessible for immediate use as a mean of payment. It includes banknotes and coins in circulation (see the indicator 'Currency outside banking system' in the table 'Banking System Survey').

M1 monetary aggregate is a sum of cash in circulation and balances in the domestic currency on current and other demand accounts (including bank card payment accounts) and interest accrued of nonfinancial organizations — residents of the Russian Federation (RF), financial institutions (except for credit ones) — residents of the RF and the RF resident households in rubles.

Money supply (M2) is a sum of cash in circulation and balances in the domestic currency on current, other demand accounts (including bank card payment accounts), time deposits and interest accrued of nonfinancial organizations — residents of the RF, financial institutions (except for credit ones) — residents of the RF and the RF resident households. The money supply in the national definition includes all cash and deposits of the RF resident nonfinancial organizations, the RF resident financial institutions (except for credit ones) and the RF resident households with the operating credit institutions — residents of the RF in rubles.

Deposits include transferable deposits and other deposits.

Transferable deposits include current and other demand accounts (including bank card payment accounts) and interest accrued of nonfinancial organizations — residents of the RF, financial institutions (except for credit ones) — residents of the RF and households — residents of the RF.

Other deposits include time deposits and interest accrued of nonfinancial organizations — residents of the RF, financial institutions (except for credit ones) — residents of the RF and households — residents of the RF.

Unlike the indicator 'Broad money liabilities' in the table 'Banking System Survey', deposits do not include foreign currency deposits.

Monetary aggregate M2 does not include deposits in credit institutions with revoked licences.

Table 1.14
Monetary Base (Broad Definition)

General Provisions

The table presents information on the volume, structure and dynamics of the monetary base. This indicator characterizes the ruble-denominated monetary obligations of the Bank of Russia.

The Monetary Base (the table 'Central Bank Survey') is calculated just as the monetary base (broad definition).

The source of information used in calculating the monetary base (broad definition) is data from the Bank of Russia monthly

consolidated balance sheet. In addition to the *Bank of Russia Statistical Bulletin*, data on the volume, structure and dynamics of the monetary base (broad definition) are available on the Bank of Russia website.

Individual Indicators Highlights

All elements of the monetary base (broad definition) are calculated in the Russian currency only.

Currency in circulation, including balances in credit institutions' cash vaults is currency in circulation issued by the Bank of Russia, excluding cash balances in Bank of Russia vaults, ATMs and in transit, as well as precious metal coins in circulation.

Correspondent accounts balances of credit institutions with the Bank of Russia are balances of ruble-denominated correspondent accounts of the RF resident credit institutions with the Bank of Russia, including an averaged amount of the required reserves (see also comments on tables 2.3—2.5).

Required reserves are balances in the required reserve accounts deposited by the RF resident credit institutions with the Bank of Russia on funds raised in rubles and foreign currency (see also comments on tables 2.3—2.5).

Credit institutions' deposits with the Bank of Russia are balances in credit institutions' deposit accounts with the Bank of Russia.

Bank of Russia bonds with credit institutions represent value of Bank of Russia bonds with credit institutions.

Table 1.15
Other Financial Institutions Survey
(by Selected Number of Financial Intermediaries)

General Provisions

Other Financial Institutions Survey contains data that illustrate the relations between insurance companies, private pension funds, public financial corporations (since December 2012) and other sectors of the economy and nonresidents. The source of information used in compiling Other Financial Institutions Survey is the data of federal statistical forms No. 1-FS (SK) 'Insurance Company Borrowings and Investments' and No. 1-FS (NPF) 'Private Pension Fund Financial Operations' quarterly reported by insurance companies and private pension funds to the Bank of Russia and the quarterly data of public financial corporations (since December 2012).

Individual Indicators Highlights

The survey gives data on net equity of households in life insurance reserves, net equity of households in pension funds reserves, prepaid premiums and reserves for outstanding claims.

Net equity of households in life insurance reserves is technical provisions insurance companies' reserves formed against outstanding risks under life insurance agreements.

Net equity of households in pension funds reserves comprises pension accruals and reserve for pension plan liabilities accumulated as part of pension reserves of pension funds.

Prepaid premiums and reserves for outstanding claims include the insurance payments of credit institutions under deposit agreements with households, the amounts of unearned premium reserves and loss reserves formed for covering claims under non-life insurance agreements with residents and the amount of compulsory medical insurance reserves.

Other items (net) include the balances of other assets and other liabilities, which are not included in the above-mentioned aggregates, and also consolidation adjustment. Other liabilities comprise debts on unpaid pensions and accrued cash surrender value, deferred revenue, accounts payable under insurance and co-insurance agreements, other reserves, equalization reserve of private pension funds, other accounts payable and other liabilities; other assets represent nonfinancial assets, accounts receivable under insurance and co-insurance agreements and other accounts receivable, deferrals, other reserves and costs and other assets; consolidation adjustment represents the balance of reinsurance transactions with residents.

Table 1.16
Financial Sector Survey
(by Selected Number of Financial Intermediaries)

General Provisions

The table presents the result of consolidated data shown in the Banking System Survey and Other Financial Institutions Survey (by selected number of financial intermediaries). The consolidation is made by subtracting all intersectoral claims and liabilities between monetary authorities, credit institutions, public financial corporations (since December 2012), insurance companies and private pension funds and by adding up their transactions to other resident and nonresident sectors. The Bank of Russia compiles Financial Sector Survey on a quarterly basis.

Insurance technical reserves comprise insurance reserves of the other financial institutions, accumulated to cover the claims of resident policyholders: under life insurance agreements with households, under non-life insurance agreements with credit institutions, with nonfinancial organizations and households, to cover the claims of participants in pension plans under agreements on private pension provision, agreements on compulsory pension insurance and agreements on creating a professional pension system.

The survey gives data on net equity of households in life insurance reserves, net equity of households in pension funds reserves, prepaid premiums and reserves for outstanding claims.

Net equity of households in life insurance reserves is technical provisions insurance companies' reserves formed against outstanding risks under life insurance agreements.

Net equity of households in pension funds reserves comprises pension accruals and reserve for pension plan liabilities accumulated as part of pension reserves of pension funds.

Prepaid premiums and reserves for outstanding claims include the insurance payments of credit institutions under deposit agreements with households, the amounts of unearned premium reserves and loss reserves formed for covering claims under non-life insurance agreements with residents and the amount of compulsory medical insurance reserves.

Other items (net) include the balances of other assets and other liabilities, which are not included in the above-mentioned aggregates.

Table 1.18
Financial Sector Survey

General Provisions

The table presents the result of consolidated data shown in the Banking System Survey and Other Financial Institutions Survey. The consolidation is made by subtracting all intersectoral claims and liabilities between monetary authorities, credit institutions, other financial institutions and by adding up their transactions to other resident and nonresident sectors. The Bank of Russia compiles Financial Sector Survey on a quarterly basis.

Individual Indicators Highlights

Net foreign assets — netting all transactions in assets and liabilities made by monetary authorities, credit institutions, other financial institutions with nonresidents in foreign and national currency.

Domestic claims comprise claims of the banking system and other financial institutions on nonfinancial institutions and households, and also net claims on general government.

Net claims on general government include claims of the banking system and other financial institutions on the Russian Federation government, fiscal authorities of the Russian Federation constituent entities and local authorities, government and other extrabudgetary funds less the liabilities of the banking system and other financial institutions to the general government.

Claims on other sectors include claims of banking system and other financial institutions on nonfinancial organizations and households.

Claims on nonfinancial organizations comprise investments by the banking system and other financial institutions in debt securities and shares issued by nonfinancial organizations, credits and loans extended to nonfinancial organizations and other accounts receivable.

Claims on households include loans and credit extended by the banking system and other financial institutions to individuals and individual entrepreneurs.

Currency outside financial sector — cash issued by the Bank of Russia less cash in vaults of the Bank of Russia, credit institutions and other financial institutions.

Deposits include funds held by the Russian Federation residents (nonfinancial organizations and households) in current accounts, time deposit and other funds attracted by the banking system, both included and excluded from broad money.

Securities other than shares include bonds, bills, deposit and saving certificates issued by credit institutions and other financial institutions.

Loans are the loans extended to credit institutions and other financial institutions by nonfinancial organizations and households.

Insurance technical reserves comprise total funds of other financial institutions to cover the claims of participants in pension plans and resident insurance policyholders and beneficiaries: nonfinancial organizations and households.

Other items (net) — assets and liabilities, which are not included in the above-mentioned aggregates and consolidation adjustment between mutual liabilities and mutual claims of the banking system and other financial institutions.

Section 2. The Bank of Russia Balance Sheet. Instruments of the Bank of Russia Monetary Policy

This section highlights monetary policy instruments used by the Bank of Russia: required reserves, auctions to provide and absorb liquidity, and standing facilities. All the data cited in this section are available on the Bank of Russia website, in the *Statistics* section.

Table 2.1
The Bank of Russia Balance Sheet

General Provisions

The accounting and compiling of the Bank of Russia balance sheet are regulated by the Federal Law 'On the Central Bank of the Russian Federation (Bank of Russia)', the Federal Law 'On Accounting', Bank of Russia Regulation No. 522-P, dated 21 December 2015, 'Bank of Russia Accounting Policy for Accounting Purposes', Bank of Russia Regulation No. 567-P, dated 19 December 2016, 'On Chart of Accounts for Accounting Purposes in the Central Bank of the Russian Federation (Bank of Russia) and the Procedure for Using It', and other Bank of Russia regulations issued in compliance with the above federal laws.

Pursuant to Article 25 of the Federal Law 'On the Central Bank of the Russian Federation (Bank of Russia)', the Bank of Russia publishes its balance sheet every month.

In addition to being published in the *Bank of Russia Statistical Bulletin*, the Bank of Russia financial statements are included in the Bank of Russia's *Annual Report*.

Individual Indicators Highlights

Assets

Assets are represented in the Bank of Russia balance sheet net of the provisions made for them. Accrued interest receivable/payable is included in related type of assets/liabilities of the Bank of Russia balance sheet.

Foreign currency-denominated assets and precious metals mainly include foreign currency claims on foreign financial institutions and foreign issuers of securities, as well as precious metals in physical form, coins and commemorative medals.

Credits and deposits mainly include credits and deposits, repo funds provided by the Bank of Russia to credit institutions, and deposits placed as part of bank bankruptcy prevention measures from the funds constituting the Fund of Banking Sector Consolidation, as well as other credits.

Securities represent the Bank of Russia's investment in debt obligations of the Government of the Russian Federation, debt obligations of other issuers of the Russian Federation, credit and other institutions' shares (the Bank of Russia's equity stakes), as well as credit institutions' shares and unit investment funds' units acquired to participate in bankruptcy prevention measures.

Claims on the IMF include the Russian Federation's quota in the IMF, holdings on the account of the Russian Federation in the IMF's SDR Department, and Bank of Russia loans issued to the IMF under the New Arrangements to Borrow.

Other assets include Bank of Russia fixed assets, Bank of Russia claims on credit institutions with revoked licenses, claims acquired as a result of compensation to the Pension and Social Insurance Fund of the Russian Federation for a shortfall in pension savings with non-governmental pension funds not registered in the guarantee system for insured persons' rights, Bank of Russia claims on other operations, economic activity settlements and other Bank of Russia transactions, and also the excess of negative unrealized differences, which arise from the revaluation of foreign currency, securities or precious metals during a year, over positive ones. If during the year, there arises an excess of positive unrealized differences, these amounts are posted as part of **Other liabilities**.

Liabilities

Cash in circulation — the amount of banknotes and coins issued by the Bank of Russia, excluding cash rubles in Bank of Russia vaults, Bank of Russia ATMs and in transit, as well as cash held by the Bank of Russia and dispensed to provide cash services to credit institutions.

Funds in accounts with the Bank of Russia mainly include balances in federal budget accounts with the Bank of Russia, funds in the treasury single account, funds in correspondent, deposit and required reserve accounts deposited by credit institutions with the Bank of Russia, payment system operators' funds, as well as funds of other clients of the Bank of Russia.

Liabilities to the IMF include funds on the IMF's accounts in rubles and liabilities on SDRs distributed to the Russian Federation as a result of SDR allocation by the IMF.

Other liabilities mainly represent complementary Bank of Russia employee pension scheme funds, liabilities on other operations and balances of some other accounts. Other liabilities reflect the excess of positive unrealized differences, which arise from the revaluation of foreign currency, securities or precious metals during a year, over negative ones. If during the year, there arises an excess of negative unrealized differences, these amounts are posted as part of **Other assets**.

Capital

Capital is the sum of the authorized capital, reserves and special-purpose funds, as well as losses of previous years.

Table 2.2
The Bank of Russia Key Rate¹

General Provisions

The Bank of Russia key rate (hereinafter, the key rate) is an interest rate for the Bank of Russia to influence interest rates in the economy, which are optimal given the situation for achieving the inflation target. The key rate is set by the Bank of Russia Board of Directors. The key rate equals the minimum/maximum rate on Bank of Russia operations to regulate banking sector liquidity (one-week auctions to provide and absorb ruble liquidity). It is also the centre of the Bank of Russia's interest rate corridor bounding the fluctuations of overnight interbank rates.

General Provisions

The table 'Required Reserve Ratios' shows changes in the ratios for required reserves for credit institutions' liabilities in Russian rubles and foreign currency.

The table 'Required Reserve Averaging Ratios Set by the Bank of Russia' presents changes in the required reserve averaging ratios.

The table 'Adjustment Ratios for Reservable Liabilities and Required Reserves' shows changes in the adjustment ratios for reservable liabilities and required reserves.

counts) with the Bank of Russia' presents changes in the amount of required reserves maintained by credit institutions in correspondent accounts (sub-accounts). The said amount is included in the item 'Credit institutions' correspondent accounts with the Bank of Russia' in the table 'Broad money'.

Data on the required reserve ratios and averaging ratios and their changes according to decisions made by the Bank of Russia Board of Directors are published in the *Bank of Russia Bulletin*. This information is also available on the Bank of Russia website.

Individual Indicators Highlights

Required reserves (required reserve ratios, required reserve averaging ratio) are a basic instrument of the Bank of Russia's monetary policy. Information on the amount of required reserves is published in the *Bank of Russia Bulletin* and on the Bank of Russia website.

The required reserve ratios determine the amount of required reserves as a percentage of a credit institution's liabilities.

The averaging ratio is a numerical factor ranging from 0 to 1, which is used to calculate the averaged amount of required reserves.

According to Article 38 of the Federal Law 'On the Central Bank of the Russian Federation (Bank of Russia)', the amount of required reserves (required reserve ratio, required reserve averaging ratio) and the procedure for credit institutions' fulfilment of the reserve requirements, including the procedure for depositing required reserves with the Bank of Russia, are established by the Bank of Russia Board of Directors.

A credit institution deposits required reserves with the Bank of Russia by transferring them into the required reserve account opened with the Bank of Russia, and (or) fulfilling the required reserve averaging obligation, that is, by maintaining the average amount of required reserves in the correspondent account and sub-accounts opened with the Bank of Russia.

In the case where a credit institution's banking licence is revoked, the required reserves deposited by the credit institution with the Bank of Russia are used in accordance with the procedure stipulated by federal laws and related Bank of Russia regulations.

The adjustment ratio is a numerical factor ranging from 0 to 1, which is established by the Bank of Russia Board of Directors for determining the amount of a credit institution's liabilities to other resident credit institutions under issued debt securities to be excluded from reservable liabilities.

The ratios on operations involving a credit institution – central counterparty are numerical factors ranging from 0 to 1, which are established by the Bank of Russia Board of Directors for determining the amounts of a credit institution's liabilities that arise within repo and deposit operations between clearing participants involving a credit institution – central counterparty and are subject to be included in reservable liabilities pursuant to Bank of Russia Regulation No. 753-P, dated 11 January 2021, 'On Credit Institutions' Required Reserves' (became effective on 1 April 2022).

The adjustment of required reserves for a credit institution's vault cash is to determine the value of cash in Russian rubles in the credit institution's vault to be excluded from the calculation of the regulatory amount of required reserves.

Table 2.7
Interest Rates on Monetary Policy Instruments
of the Bank of Russia

General Provisions

The table presents the dynamics of interest rates on monetary policy instruments set by the Bank of Russia Board of Directors to achieve the operational goal of monetary policy, which is to keep overnight interbank rates close to the key rate.

Interest rates on monetary policy instruments are tied to the key rate in percent per annum.

The Bank of Russia Board of Directors sets maximum rates submitted at main deposit auctions and fine-tuning deposit auc-

tions as well as minimum rates submitted at main repo auctions and fine-tuning repo auctions at the key rate level. Interest rates on funds extended or attracted at these auctions are fixed (they do not change if the key rate changes).

Interest rates on overnight standing facilities form the Bank of Russia interest rate corridor that helps restrict the volatility of overnight interbank rates and keep them closer to the key rate. The Bank of Russia forms its interest rate corridor symmetrically relative to the key rate by setting interest rates on overnight standing deposit facilities at 100 bp above the key rate, and the interest rate on standing overnight deposit facilities at 100 bp below the key rate.

Bank of Russia standing liquidity provision facilities include such repayable operations that are conducted automatically or at a request of a credit institution in the full amount and at a predetermined interest rate or at a predetermined spread to the key rate. Credit institutions can access these instruments every day.

The Bank of Russia Board of Directors sets minimum rates submitted at loan auctions, which are conducted if there is a significant and sustained structural deficit of liquidity, at 25 bp above the key rate. These rates are floating, i.e. interest rates on previously issued loans follow changes in the key rate (with a fixed spread determined at auction).

The Bank of Russia Board of Directors sets minimum rates submitted at 1-month repo auctions at 10 bp above the key rate and at 1-year repo auctions – at 25 bp above the key rate. Interest rates on 1-month repos are fixed, i.e. they do not change if the key rate changes, while those on 1-year repos are floating, i.e. they follow changes in the key rate (with a fixed spread determined at auction).

Since 1 March 2022, the interest rates on standing lending facilities for 2 to 90 days are set by the Bank of Russia Board of Directors at 100 bp above the key rate and those for more than 90 days – at 175 bp above the key rate. These rates are floating, i.e. interest rates on previously issued loans follow changes in the key rate.

Individual Indicators Highlights

Interest rate on standing deposit facilities – currently, this is the interest rate on standing overnight deposit facilities that represents the lower bound of the interest rate corridor and is set by the Bank of Russia Board of Directors at 100 bp below the key rate. Up to and including 2 March 2019, this was also the interest rate on standard 'tom-next', 'spot-next' and 'on demand' standing deposit facilities.

Maximum rate submitted at deposit auctions is the highest interest rate that can be submitted by deposit auction participants. As per decisions of the Bank of Russia Board of Directors, maximum interest rates submitted at main deposit auctions (1 week) and at fine-tuning deposit auctions are tied to the key rate.

Minimum rate submitted at repo auctions is the lowest interest rate that can be submitted by repo auction participants. As per decisions of the Bank of Russia Board of Directors, minimum interest rates submitted at main repo auctions (1 week) and at fine-tuning repo auctions are tied to the key rate while minimum interest rates submitted at 1-month repo auctions are set at 10 bp above the key rate and those at 1-year repo auctions – at 25 bp above the key rate.

Minimum rate submitted at loan auctions (non-marketable assets) is the lowest interest rate that can be submitted by participants at auctions to provide loans secured by non-marketable assets. As per the decisions of the Bank of Russia Board of Directors, this rate is set at 25 bp above the key rate.

Interest rate on standing overnight loans, repos and FX swaps is the single interest rate on all overnight standing liquidity provision facilities, including overnight loans, lombard loans, loans secured by non-marketable assets, repo and FX swap operations. This rate represents the upper bound of the interest rate corridor and is set by the Bank of Russia Board of Directors at 100 bp above the key rate.

The interest rate on the 'ruble part' of the Bank of Russia's USD/RUB and EUR/RUB buy/sell FX swaps is provided. From

18 June 2012 to 22 December 2016, the interest rate on the 'foreign currency part' of these operations was equal to zero, and from 23 December 2016 to 31 December 2021, it was equal to overnight LIBOR rates on loans in US dollars or euros. According to the decision of the Bank of Russia Board of Directors, since 1 January 2022 the interest rate on US dollars is equal to the SOFR and that on euros – to the €STR.

Also, the interest rate on overnight loans secured by gold up to and including 15 July 2017 and the interest rate on overnight loans secured by sureties of credit institutions up to and including 30 September 2018. Due to changes in external economic conditions, the Bank of Russia suspended FX swap operations.

Interest rate on lombard loans and loans secured by non-marketable assets for 2 to 90 days is the interest rate on standing lending facilities secured by non-marketable assets, and since 25 March 2022 the rate on lombard loan facilities for 2 to 90 days set by the Bank of Russia Board of Directors at 100 bp above the key rate.

Interest rate on standing lending facilities secured by non-marketable assets for more than 90 days is the interest rate on standing lending facilities secured by non-marketable assets for 91 to 549 days set by the Bank of Russia Board of Directors at 175 bp above the key rate.

Table 2.8
Interest Rates on the Bank of Russia's
Special Facilities

General Provisions

The table shows the dynamics of interest rates (% per annum) on loans extended within special facilities of the Bank of Russia. These interest rates were established in accordance with the rules approved by the Bank of Russia Board of Directors. There are interest rates at which new loans are granted since the specified date. The special facilities of the Bank of Russia are aiming to incentivize credit institutions to grant loans to top-priority industries and economic sectors.

Individual Indicators Highlights

SME Support – the interest rates on Bank of Russia loans secured by guarantees of JSC Russian Small and Medium Business Corporation and from 20 June 2023 on Bank of Russia loans secured by federal government bonds. Also, up to and including 22 August 2021, the interest rate on Bank of Russia loans secured by credit claims of JSC SME Bank on credit institutions, microfinance organizations or leasing companies for lending or on ceding property to SMEs.

Non-Commodity Export Support (EXIAR) – the interest rate on Bank of Russia loans secured by credit claims on agreements backed by insurance contracts of JSC Russian Agency for Export Credit and Investment Insurance (JSC EXIAR).

Support for Large Investment Projects – the interest rate on Bank of Russia loans secured by claims on loans granted for the purpose of financing investment projects. Also, up to and including 20 May 2019, the interest rate on Bank of Russia loans secured by bonds placed for the purpose of financing investment projects.

Leasing Development Support – the interest rate on Bank of Russia loans secured by credit claims on leasing companies.

Economy Support Amid the COVID-19 Pandemic – from 1 November 2021 to 1 May 2022, the interest rate on Bank of Russia loans secured by guarantees of JSC Russian Small and Medium Business Corporation granted to support lending to SMEs operating in various industries of Russia's economy most affected by COVID-19. Previously, the interest rate on Bank of Russia unsecured loans granted to support SME lending (loans provided until 30 September 2020) and on Bank of Russia unsecured loans or loans secured by guarantees of JSC Russian Small and Medium Business Corporation to support lending for urgency needs and for maintaining employment (loans provided until 30 November 2020).

SME Support (unsecured loans) – the interest rates on unsecured loans to support lending to SMEs (provision from 11 March to 30 December 2022).

Table 2.9
Liquidity Provided by the Bank of Russia
through Lending, Repo and FX Swap Operations

General Provisions

The table contains information for the last full calendar month on funds (liquidity) provided by the Bank of Russia to credit institutions in rubles through lending, repo and FX swap operations broken down by instruments. The information is provided on a daily basis (business days) in millions of rubles.

Individual Indicators Highlights

Intraday loans means the amount of loans issued by the Bank of Russia to credit institutions during the day by executing settlement documents and debiting funds from correspondent accounts/subaccounts exceeding the available balance. These loans need to be repaid by the end of the operating day.

Standing facilities means the amount of funds extended (transferred) by the Bank of Russia and available to credit institutions after they use standing facilities including special facilities (broken down by repos, swaps, loans and special facilities of the Bank of Russia), at start of business. Includes loans issued under all types of special facilities of the Bank of Russia, including those introduced in the wake of the coronavirus infection. Due to changes in external economic conditions, the Bank of Russia suspended FX swap operations.

At auction means the amount of funds extended (transferred) by the Bank of Russia and available to credit institutions as a result of loan and repo auctions including main repo auctions (1 week), fine-tuning repo auctions, and long-term repo auctions, at start of business.

Table 2.10
Liquidity Placed by Credit Institutions on Deposits
and in Bank of Russia Bonds

General Provisions

The table contains information for the last full calendar month on credit institutions' funds (liquidity) placed in Bank of Russia instruments. The information is provided on a daily basis (business days) in billions of rubles.

Individual Indicators Highlights

Deposits with the Bank of Russia means credit institutions' funds, excluding interest, in deposit accounts with the Bank of Russia as a result of using overnight standing deposit facilities (by submitting a corresponding payment order at any time during the operating day) or as a result of deposit auctions, including main deposit auctions (1 week) and fine-tuning deposit auctions.

Bank of Russia bonds means the amount of credit institutions' funds that were actually transferred for the purchase of Bank of Russia bonds in circulation as a result of auctions.

Table 2.11
Results of Main Bank of Russia Auctions

General Provisions

The table contains information for the last full calendar month on the results of main Bank of Russia auctions with raising credit institutions' funds via deposit auctions or providing funds to credit institutions via repo auctions for one week. In the context of a structural liquidity surplus, the Bank of Russia holds main deposit auctions on a weekly basis; in the context of a structural liquidity deficit, the Bank of Russia holds main repo auctions on a weekly basis.

Individual Indicators Highlights

Auction date is the day when a one-week main deposit auction is held and its results are announced, usually, Tuesday.

Auction type is the specific type of the main auction held: a main deposit auction or a main repo auction.

Settlement date / date of the first leg is the day when funds are transferred to deposit accounts by credit institutions or to correspondent accounts of the credit institutions whose orders were satisfied at auction; usually, the next business day after the auction date.

Maturity date / date of the second leg is the day when funds are to be repaid to credit institutions or by credit institutions.

Weighted average rate is the average interest rate calculated as a result of the main auction and weighted by the amount of satisfied orders, in percent per annum.

Amount of extended funds is the amount of funds to be transferred by credit institutions to deposit accounts as a result of a deposit auction or to be provided by the Bank of Russia under repo transactions as a result of a repo auction (this indicator is not adjusted if the amount of actually transferred funds differs due to failure to execute deals), in billions of rubles.

Table 2.12**Results of Bank of Russia Fine-Tuning Auctions****General Provisions**

The table contains information for the last full calendar month on the results of Bank of Russia fine-tuning auctions. The Bank of Russia holds fine-tuning auctions to prevent substantial fluctuations of interest rates on overnight interbank loans in case of an imbalance of supply and demand for liquidity in the money market. The Bank of Russia holds repo auctions if supply exceeds demand, and deposit auctions if demand exceeds supply. If necessary, the Bank of Russia holds fine-tuning auctions between main weekly actions. This means that funds at fine-tuning auctions are provided or attracted for shorter periods (usually, no longer than for six calendar days).

Individual Indicators Highlights

Auction date is the day when a fine-tuning auction is held and its results are announced; also the day when the Bank of Russia provides funds to credit institutions in the case of a repo auction or when credit institutions transfer funds to deposit accounts in the case of a deposit auction.

Auction type is the type of the fine-tuning auction held: a repo auction or a deposit auction.

Maturity is the number of days for which the Bank of Russia provided funds in the case of a repo auction or credit institutions transferred funds to deposit accounts in the case of a deposit auction.

Weighted average rate is the average interest rate calculated as a result of the auction and weighted by the amount of satisfied orders, in percent per annum.

Amount is the amount of funds to be transferred by the Bank of Russia through entering into repo transactions as a result of a repo auction or to be transferred by credit institutions to deposit accounts as a result of a deposit auction (this indicator is not adjusted if the amount of actually provided or attracted funds differs due to failure to execute deals), billions of rubles.

Table 2.13**Results of Bank of Russia
Long-Term Repo Auctions****General Provisions**

The table contains information for the last three full calendar months on the results of Bank of Russia 1-month and 1-year repo auctions. The Bank of Russia holds these auctions monthly in line with an approved schedule.

Individual Indicators Highlights

Auction date is the day when a long-term repo auction is held and its results are announced.

Date of the first leg is the day when funds are transferred under repo transactions to the credit institutions whose orders were satisfied at auction; usually, the next business day after the auction date.

Date of the second leg is the day when credit institutions need to repay the funds to the Bank of Russia under the repo transactions.

Weighted average rate is the average interest rate calculated as a result of the auction on funds provided under repo transactions and weighted by the amount of satisfied orders, in percent per annum.

Amount of extended funds is the amount of funds to be transferred to credit institutions as a result of the auction (this indicator is not adjusted if the amount of actually transferred funds differs due to failure to execute deals), billions of rubles.

Weighted Average Actual Rates on Moscow Banks' Credits in Rubles (MIACR, MIACR-IG, MIACR-B)

Table 3.1.4

Weighted Average Actual Rates on Moscow Banks' Credits in US Dollars (MIACR USD)

General Provisions

These tables contain the data on bid and offered rates and interbank lending rates with breakdown by maturity bands (1 day, 2 to 7 days, 8 to 30 days, 31 to 90 days, 91 to 180 days and 181 days to 1 year) in rubles and in US dollars.

The source of data is the daily reporting form 0409701 'The foreign exchange and money markets transactions report' in compliance with the Bank of Russia Ordinance No. 4927-U, dated 8 October 2018, 'On the List, Forms and Procedure for Compiling and Presenting Credit Institutions Reporting Forms to the Central Bank of the Russian Federation' presented by the panel banks in the Moscow region.

Information on the interbank money market rates is also published in the *Bank of Russia Bulletin* and on the Bank of Russia's official website.

Individual Indicators Highlights

Monthly Average Actual Rates on Moscow Banks' Credits (MIACR, MIACR-IG, MIACR-B) are calculated as simple averages of daily MIACR, MIACR-IG and MIACR-B rates for the corresponding period with breakdown by maturity bands.

Weighted Average Actual Rates on Credits (MIACR, MIACR-IG, MIACR-B) are calculated as weighted averages of the interest rates applied to the actual interbank lending transactions conducted by Moscow banks with breakdown by maturity bands. Transactions with maximal rates (10% of overall volume of transactions) and transactions with minimal rates (10% of overall volume of transactions) are excluded from calculation.

Since January 2015, transactions with volume 10 times above the maximum total daily volume of the bank's similar transactions (with regard to maturity and currency) for the latest six months are excluded from calculation of interbank lending rates MIACR, MIACR-IG, MIACR-B. Furthermore, rates and corresponding turnover volumes are not published in case of calculation on the basis of less than three transactions.

Since August 2015, bank's transactions with one counterparty at the similar rate (with regard to maturity and currency) are considered as one transaction for calculation of interbank lending rates MIACR, MIACR-IG, MIACR-B.

Since February 2016, transactions between banks involved in measures aimed at preventing bank bankruptcy and corresponding investor banks are excluded from calculation of interbank lending rates MIACR, MIACR-IG, MIACR-B.

Weighted Average Actual Rates on Moscow banks' credits (MIACR) include rates in lending transactions with resident and non-resident banks.

Weighted Average Actual Rates on Moscow banks' credits to Russian banks with high credit rating (MIACR-IG) include rates in lending transactions with Russian banks with credit rating from Baa3 on Moody's scale or BBB- on Fitch and Standard & Poor's scales and higher.

Weighted Average Actual Rates on Moscow banks' credits to Russian banks with speculative credit rating (MIACR-B) include rates in lending transactions with Russian banks with credit rating from B3 to B1 on Moody's scale or from B- to B+ on Fitch and Standard & Poor's scales.

Table 3.1.5

Average Daily Turnover of Interbank Lending (Deposits) and REPO Operations

Table 3.1.6

Average Daily Interbank Lending (Deposits) Turnover and REPO Operations by Maturity

General Provisions

These tables are formed on the basis of the daily reporting form 0409701 'The foreign exchange and money markets transactions report' in compliance with the Bank of Russia Ordinance No. 4927-U, dated 8 October 2018, 'On the List, Forms and Procedure for Compiling and Presenting Credit Institutions Reporting Forms to the Central Bank of the Russian Federation' presented by the panel banks. The data include average daily interbank credits (deposits) turnover and repo operations with breakdown by maturity bands, instruments and currencies applied in the interbank money market.

Information is also published on the Bank of Russia's official website.

Individual Indicators Highlights

Interbank lending (deposits) turnover and repo operations include interbank lending transactions and deposits without any collateral or obligations and repo operations, conducted with residents of the Russian Federation (excluding double counting) and non-residents of the Russian Federation (banks and international financial institutions).

Data exclude transactions with the Bank of Russia, on-demand operations, intraday operations, subordinate loans and syndicated loans.

Subsection 3.2. Exchange Rates and Reference Prices of Precious Metals

Table 3.2.1

Official Exchange Rate of US Dollar Against Ruble

Table 3.2.2

Official Exchange Rate of Euro Against Ruble

General Provisions

Official exchange rates of foreign currencies against ruble are set and published by the Bank of Russia according to Article 53 of Federal Law 'On the Central Bank of Russian Federation (Bank of Russia)'.

Data on official exchange rates are disseminated on the day of their setting on the Bank of Russia's website and are published in the *Bank of Russia Bulletin*.

Individual Indicators Highlights

Official exchange rate of US dollar against ruble is calculated and set by the Bank of Russia each business day on the basis of USD/RUB quotations in the domestic interbank foreign exchange market.

Official exchange rate of euro against ruble is calculated and set by the Bank of Russia on the basis of the official exchange rate of the US dollar against ruble and EUR/USD quotations in the international interbank foreign exchange market.

Table 3.2.5

Reference Prices of Refined Precious Metals

General Provisions

To promote further development of the precious metals market in Russia, the Bank of Russia, pursuant to its Ordinance No. 1283-U, dated 28 May 2003, 'On the Procedure for Fixing Reference Prices of Refined Precious Metals', sets book prices of precious metals every business day at 2 p.m. Moscow time. They are calculated on the basis of real time spot prices of gold, silver, platinum and palladium from London Fixings and recalculated in

rubles at an official US dollar / ruble rate effective on the day following the day on which book prices were fixed.

The table shows daily book prices of above precious metals for the accounting month.

To enable credit institutions to account for precious metals (gold, silver, platinum and palladium), it is established that reference prices of refined gold, silver, platinum and palladium come into effect on the business day following the day on which they were fixed and remain effective until the Bank of Russia sets new reference prices.

Bank of Russia Ordinance No. 1284-U, dated 28 May 2003, 'On Invalidating Some Bank of Russia Regulations' repealed Bank of Russia Ordinance No. 652-U, dated 30 September 1999, 'On the Procedure for Calculating the Bank of Russia Buying and Selling Prices of Refined Precious Metals in Operations with Credit Institutions' (with amendments), which set the procedure for fixing prices for the Bank of Russia buying and selling precious metals on the domestic market.

Bank of Russia Ordinance No. 1993-U, dated 9 April 2008, 'On Amending Point 2 of Bank of Russia Ordinance No. 1283-U, dated 28 May 2003, 'On the Procedure for Fixing Reference Prices of Refined Precious Metals', cancelled since 1 July 2008, discounts for fixings equaling 'the average cost of delivery of each precious metal to the international market'.

The reference prices of precious metals fixed by the Bank of Russia are published in the *Bank of Russia Bulletin*, reported by Interfax, PRIME, Reuters, Associated Press and other news agencies and are available on the Bank of Russia's website.

Table 3.3
Stock Exchange Trade by Types of Securities
and Financial Derivatives

General Provisions

The table 'Stock Exchange Trade by Type of Securities and Financial Derivatives' shows volumes of stock exchange trade in securities and financial derivatives (including repos) broken down by type of securities and financial derivatives.

Volumes of trade in futures on securities and futures on stock indices are calculated separately for futures. Volumes of trade in options on futures, an underlying asset of which are securities, and options on futures, an underlying asset of which are stock indices, are calculated separately for options.

Individual Indicators Highlights

The terms 'share', 'bond', 'investment unit', 'financial derivative', 'futures', and 'option' are defined in line with Federal Law No. 39-FZ, dated 22 April 1996, 'On the Securities Market', Federal Law No. 65-FZ, dated 22 April 2010, 'On Investment Funds', and Bank of Russia Ordinance No. 3565-U, dated 16 February 2015, 'On Types of Financial Derivatives'.

Share is an issued security that fixes the rights of its owner (shareholder) to receive part of the profit of a corporation in the form of dividends, to participate in the management of the corporation and to receive part of the property that remains after its liquidation. Shares are inscribed (registered) securities.

Bond is an issued security that fixes the right of its holder to receive its nominal value from the bond issuer, in the period of time provided for by such bond, or other property equivalent. A bond may likewise provide for the right of its holder to receive the interest fixed in it, on the nominal value thereof or for other property rights. The income on a bond is interest and (or) discount.

Russian depository receipt (RDR) is a registered security that does not have a par value, confers ownership rights to a certain number of securities (shares or bonds of a foreign issuer (underlying securities) or securities of other foreign issuer certifying the rights to shares or bonds of a foreign issuer) and carries the RDR holder's right to receive from the RDR issuer the relevant number

of underlying securities in exchange for the depository receipts and to be provided with services in relation to the exercise of rights attached to the underlying securities by the RDR holder.

Investment Share (Unit) is an inscribed security that certifies the right of its holder for a share in the property of a unit investment fund, the right to demand appropriate trust (fiduciary) management of the unit investment fund from its management company, and the right to get cash compensation upon termination of a trust management contract of the unit investment fund with all the holders of its investment shares (termination of the unit investment fund).

Derivative Financial Instrument (Derivative) is an agreement (contract), excluding repo contracts, which provides for one or several of the following obligations:

- 1) the obligation of the parties or a party to the agreement to pay on a periodical basis or as a lump sum, including if a claim is made by the other party, amounts of money depending on changes in the price of commodities, securities, exchange rate of a respective currency, interest rates, inflation rate, derivatives' prices, official statistical information, physical, biological and (or) chemical indices of environmental conditions, occurrence of circumstances which give evidence of a failure to discharge or of improper discharge by one or several legal entities, governments or municipal entities of their obligations (excluding the surety agreement and the insurance agreement), or any other circumstance provided for federal laws or Bank of Russia regulations, and in respect of which it is not known whether they will occur or not, and also depending on changes in values calculated on the basis of a single value or an aggregate of several values of indices cited in this clause. This agreement may also provide for the obligation of the parties or a party to the agreement to transfer securities, commodities or currency to the other party or the obligation to make a contract that is a derivative;
- 2) the obligation of the parties or a party to the agreement under the terms and conditions defined when making it, if the other party makes a claim, to purchase or sell securities, currency or commodities or to make a contract which is a derivative;
- 3) the obligation of the parties or a party to the agreement to transfer the securities, currency or commodities to the other party for ownership at the earliest on the third day after making the agreement and the obligation of the other party thereto to accept and pay for the cited property, and contains an indication that such agreement is a derivative.

Futures Agreement (Contract) shall be deemed a contract made in the course of exchange trade which provides for the obligation of either party to the agreement to make periodical monetary payments depending on changes in the price and (or) the value of the underlying asset and (or) the occurrence of the circumstance which constitutes an underlying asset.

Option Agreement (Contract) shall be deemed the following:

- 1) an agreement providing for the obligation of either party to the agreement, if a claim is made by the other party, to pay on a periodical basis and (or) as a lump sum amounts of money depending on changes in the price (value) of the underlying asset or occurrence of the circumstance which is deemed to be an underlying asset;
- 2) an agreement providing for the following:
 - the obligation of either party to the agreement under the terms and conditions defined when making it, if the other party makes a claim, to purchase or sell the underlying securities, currency or commodity, including by way of making by a party (parties) thereto and (or) by the person (persons) in whose interests the option agreement has been made, a contract of securities purchase and sale, a contract of foreign currency purchase and sale or a contract of commodities delivery; or
 - the obligation of either party to an agreement if the other party thereto makes a claim, to make a contract that is a derivative and constitutes an underlying asset.

Table 3.4
Main Stock
Market Indicators

General Provisions

The table presents data on the MICEX index, the RTS index and the Moscow Exchange trade turnover.

The MICEX index has been calculated since 22 September 1997 (its initial value was set at 100 points) on the basis of ruble stock prices. The sample of stocks included into the calculation basis is the expert evaluation.

The RTS index has been calculated since 1 September 1995 (its initial value was set at 100 points). Stock prices are denominated in US dollars. The sample of stocks used for the RTS index calculation basis is the expert evaluation.

The Moscow Exchange reviews the MICEX and the RTS Indices' List of constituent Stocks four times a year.

Individual Indicators Highlights

The Moscow Exchange trade turnover is the value of transactions with stocks, conducted in secondary trading on the Moscow Exchange in ruble equivalent.

The **MICEX Index** and the **RTS Index** are capitalization-weighted composite indices calculated based on prices of 50 most liquid stocks of Russian issuers. Russian depository receipts (RDRs) also may be included into the indices' Constituent List. The market capitalization contains a share of stocks outstanding in the secondary market (free-float).

More detailed information on the calculation of the above indicators is available at the website: rts.micex.ru.

Section 4. Financial Institutions' Performance

Subsection 4.1. General Description

Table 4.1.1
Quantitative Characteristics
of Operating Credit Institutions

General Provisions

The table provides data on the number and structure of credit institutions operating in the Russian Federation.

Credit institutions are subject to state registration pursuant to the Federal Law 'On the State Registration of Legal Entities and Individual Entrepreneurs'. They are registered according to the procedure established by Articles 4 and 59 of the Federal Law 'On the Central Bank of the Russian Federation (the Bank of Russia)' and Article 12 of the Federal Law 'On Banks and Banking Activities'.

The Bank of Russia makes decisions on state registration of credit institutions, grants banking licences to them and suspends and revokes such licences.

Data on the establishment, reorganization and liquidation of credit institutions and other data stipulated by federal laws are entered into a single state register of legal entities by an authorized registering body on the basis of the Bank of Russia decision on corresponding state registration. The Bank of Russia interacts with the registration authority on issues relating to the state registration of credit institutions in accordance with the procedure agreed by the Bank of Russia with the registration authority.

For the procedure of registration of credit institutions and licensing of banking activities, see also the Bank of Russia Instruction No. 135-I, dated 2 April 2010, 'On the Procedure for Making Decisions by the Bank of Russia on the State Registration of Credit Institutions and Issuing Banking Licences'.

To fulfill its controlling and supervisory functions, the Bank of Russia keeps the State Register of Credit Institutions in accordance with the procedure established by federal laws and the Bank of Russia rules and regulations issued in pursuance of these laws.

The register of licences granted to credit institutions must be published by the Bank of Russia in the *Bank of Russia Bulletin* at least once a year. Any change or addition to the register is published by the Bank of Russia within one month from the day it was entered into the register.

Information on official registration of credit institutions, granting them licences, changes in their names, location, restructuring and liquidation are reported in the *Bank of Russia Bulletin* and placed on the Bank of Russia' website.

Individual Indicators Highlights

The concepts of a credit institution, bank and nonbanking credit institutions are determined by the Federal Law 'On Banks and Banking Activities' (Article 1).

Credit institution – legal entity authorized by a special the Bank of Russia permission (licence) to make its profits from banking activities within the framework of the above legislation. A credit institution may be established on the basis of any form of ownership as an economic agent.

Bank – credit institution having an exclusive authority for complex banking operations, namely: to accept deposits of legal entities and individuals, to invest raised funds on its behalf and at its cost on terms of repayability, chargeability, and maturity, and also to open and keep banking accounts of individuals and legal entities.

Nonbanking credit institution:

- 1) credit institution authorized exclusively for banking operations, mentioned in points 3 and 4 (only in the part of banking accounts of legal entities connected with money transfers without opening banking accounts), and also in point 5 (only in the part of money transfers without opening banking accounts) and in point 9 part one Article 5 Federal Law 'On Banks and Banking Activities' (nonbanking credit

institutions authorized for money transfers without opening banking accounts and other banking operations connected with them);

- 2) credit institution authorized for selected banking operations, established by Federal Law 'On Banks and Banking Activities'. The permissible combination of banking operations for such nonbanking institutions are specified by the Bank of Russia.
- 3) credit institution – central counterparty operating in compliance with Federal Law No. 7-FZ, dated 7 February 2011, 'On Clearing, Clearing Activity and Central Counterparty'. The Bank of Russia establishes admissible combinations of banking operations for a non-bank credit institution – central counterparty.

Operating credit institutions – credit institutions registered by the Bank of Russia before 1 July 2002, or by the registration authority, and entitled to conduct banking operations.

The Bank of Russia licence is a special permission of the Central Bank of the Russian Federation (the Bank of Russia) on whose basis a credit institution has the right to conduct banking operations. The banking licence spells out the banking operations the given credit institution has the right to carry out, and also the currency in which these banking operations can be performed.

The following types of licences may be issued to newly created credit institutions:

- universal licence to conduct banking operations in rubles (without the right to accept individual deposits and accept and invest precious metals);
- universal licence to conduct banking operations in rubles and foreign currency (without the right to accept individual deposits) and accept and invest precious metals;
- universal licence to conduct banking operations in rubles and foreign currency (with the right to accept individual deposits) and accept and invest precious metals;
- universal licence to conduct banking operations in rubles (without the right to accept individual deposits, accept and invest precious metals, and implement collection of cash, bills, payment and settlement documents and cash service of individuals and legal entities);
- universal licence to conduct banking operations in rubles and foreign currency and accept and invest precious metals (without the right to accept individual deposits and implement collection of cash, bills, payment and settlement documents and cash service of individuals and legal entities);
- basic licence to conduct banking operations in rubles (without the right to accept individual deposits and accept and invest precious metals);
- basic licence to conduct banking operations in rubles and foreign currency (without the right to accept individual deposits) and accept and invest precious metals;
- basic licence to conduct banking operations in rubles (without the right to accept individual deposits, accept and invest precious metals, and implement collection of cash, bills, payment and settlement documents and cash service of individuals and legal entities);
- basic licence to conduct banking operations in rubles and foreign currency and accept and invest precious metals (without the right to accept individual deposits and implement collection of cash, bills, payment and settlement documents and cash service of individuals and legal entities);
- licence to conduct banking operations in rubles or in rubles and foreign currency for nonbank settlement credit institutions;
- licence to conduct banking operations in rubles or in rubles and foreign currency for nonbank credit institutions carrying out credit and deposit operations;
- licence to conduct banking operations in rubles or in rubles and foreign currency for nonbank credit institutions authorized for money transfers without opening accounts and other banking operations connected with them;
- licence to conduct banking operations for nonbank credit institutions, which are central counterparties.

The following types of banking licences may be issued to an operating bank for expansion of its activities:

- universal licence to conduct banking operations in rubles and foreign currency (without the right to accept individual deposits) and accept and invest precious metals;
- universal licence to conduct banking operations in rubles and foreign currency (with the right to accept individual deposits) and accept and invest precious metals;
- universal licence to conduct banking operations in rubles and foreign currency and accept and invest precious metals (without the right to accept individual deposits and implement collection of cash, bills, payment and settlement documents and cash service of individuals and legal entities);
- basic licence to conduct banking operations in rubles and foreign currency (without the right to accept individual deposits) and accept and invest precious metals;
- basic licence to conduct banking operations in rubles and foreign currency and accept and invest precious metals (without the right to accept individual deposits and implement collection of cash, bills, payment and settlement documents and cash service of individuals and legal entities);
- basic licence to conduct banking operations in rubles and foreign currency (with the right to accept individual deposits) and accept and invest precious metals.

Bank with a universal licence – bank entitled to perform banking operations specified in Part 1 of Article 5 of the Federal Law ‘On Banks and Banking Activities’.

Bank with a basic licence – bank entitled to perform banking operations specified in Part 1 of Article 5 of the Federal Law ‘On Banks and Banking Activities’ subject to the restrictions established by Article 5.1 of the Federal Law ‘On Banks and Banking Activities’.

The authorized capital of a credit institution is based on funds contributed by owners (shares and other equity) and determines the minimum amount of assets serving as a guarantee to creditors.

As of the date of application for the state registration and a licence to conduct banking operations the minimum amount of the share capital for newly created credit institution complies with Article 11 of the Federal Law ‘On Banks and Banking Activities’.

Registered authorized capital of credit institutions – aggregate value of credit institutions’ authorized capitals as registered in the State Register of Credit Institutions.

Branches of credit institutions having the right to conduct banking operations – structural units of credit institutions located separately from headquarters, which perform on their behalf a full range or selected banking transactions specified by the Bank of Russia licence.

The line ‘PJSC Sberbank branches’ shows branches of PJSC Sberbank that were entered into the State Register of Credit Institutions and had their reference numbers assigned. Before 1 January 1998, the line provided the total number of PJSC Sberbank branches as part of monthly information on credit institutions.

Representative offices of operating credit institutions – autonomous structural units of credit institutions having a different location, acting on their behalf and protecting their interests. Representative offices are not entitled to conduct banking operations.

Additional offices, cash credit offices, external cash desks, operational offices, mobile banking offices of credit institutions having the right to conduct banking operations – special internal divisions of credit institutions (their branches), particularities of their establishment (liquidation) and activities are stipulated by the normative acts of the Bank of Russia.

Credit institutions under liquidation – credit institutions under liquidation pursuant to relevant decisions:

- decision of the credit institution’s stockholders (equity holders) or its body authorized to do so by the founding document taken in accordance with Clause 2 Article 61 of the Civil Code of the Russian Federation (voluntarily liquidation);
- decision of an arbitration court on the liquidation of the credit institution and appointing a liquidator taken in accordance with Article 23.1 of the Federal Law ‘On Banks and Banking Activities’ (compulsory liquidation);

- decision of an arbitration court on recognizing bankruptcy of the credit institution and appointing an interim trustee taken in accordance with the Federal Law ‘On Insolvency (Bankruptcy)’.

(Credit Institutions Ranked by Size of Assets)**

General Provisions

The table includes major performance indicators for tiers of credit institutions, which are first ranked by their assets and then grouped into tiers depending on their rank. Tier performance indicators show typical investment and borrowing patterns for different tiers of credit institutions.

The data source is reports of operating credit institutions submitted in compliance with Bank of Russia Ordinance No. 4927-U, dated 8 October 2018, 'On the List, Forms and Procedure for Compiling and Submitting Credit Institutions' Reporting Forms to the Central Bank of the Russian Federation'.

Starting from data as of 1 February 2019, the calculation of assets (liabilities) includes accounts which reflect the adjustment and revaluation of debit (credit) indicators and which have been included in the Chart of Accounts for Credit Institutions (Bank of Russia Regulation No. 579-P, dated 27 February 2017) from 1 January 2019.

Individual Indicators Highlights

Net assets (net of loss provisions and profit tax) — operating credit institutions' aggregate assets (balances in accounts showing credit institutions' intrabank transactions were included in assets on net basis). Beginning from 1 November 2020, this indicator is given net of loss provisions and profit tax — 'Net assets'.

Corporate loans (to non-financial and financial (other than credit) institutions) — outstanding amounts (overdue debt included) of non-financial and financial (other than credit) institutions and individual entrepreneurs, both residents and non-residents, to credit institutions on loans and other placements in rubles and foreign currency. This indicator does not include outstanding amounts on loans and other funds placed by the Ministry of Finance, regional and local financial authorities and federal, regional and local government extra-budgetary funds.

Loans to individuals — outstanding amounts (overdue debt included) of resident and non-resident individuals (excluding individual entrepreneurs) to credit institutions on all kinds of loans and other funds in rubles and foreign currency.

The data source for the above indicators is Reporting Form 0409101 'The Trial Balance of a Credit Institution'.

Equity capital — credit institutions' unencumbered property. This indicator has been calculated in compliance with Bank of Russia Regulation No. 646-P, dated 4 July 2018, 'On the Methodology for Measuring Credit Institution Capital (Basel III)'. The sources of data are reports filed by Russian operating credit institutions under Form 0409123 'Own Funds (Capital) Calculation (Basel III)'.

Capital adequacy N1.0 is the capital adequacy ratio of banks calculated as a ratio of banks' own funds (capital) to their risk-weighted assets according to Bank of Russia Instruction No. 199-I, dated 29 November 2019, 'On Banks' Required Ratios and Capital Adequacy Buffers for Banks with a Universal Licence' and Bank of Russia Instruction No. 183-I, dated 6 December 2017, 'On the Required Ratios of Banks with a Basic Licence'.

The data source is reports filed by Russian operating credit institutions under Form 0409135 'Information on Credit Institutions' Required Ratios and Other Performance Indicators'.

Loss provisions — provisions created by credit institutions for possible losses on loans, loan and similar debt, which comprise monetary claims and claims arising from transaction with financial instruments listed in Appendix No. 1 to Bank of Russia Regulation No. 590-P, dated 28 June 2017, 'On the Procedure for Making Loss Provisions by Credit Institutions for Loans, Loan and Similar Debts', provided to legal entities of any form of incorporation and to individuals, both residents and non-residents, as well as loss provisions created on the basis of professional judgement on

the risk of operations with balance sheet assets that can entail risk of losses (excluding loans, loan and similar debt), contingent credit liabilities posted to off-balance sheet accounts; interest income claims under credit claims; financial derivatives; other losses, pursuant to Bank of Russia Regulation No. 611-P, dated 23 October 2017, 'On the Procedure for Credit Institutions to Make Loss Provisions'.

Loss provisions are presented both adjusted and unadjusted.

Current year net profit (after taxation) — financial results of operating credit institutions (after taxation) for the period since the start of the current year. Financial results of the past year are not taken into account.

The data source is reports filed by Russian operating credit institutions under Form 0409101 'The Trial Balance of a Credit Institution'.

Return on assets — this indicator is calculated as the ratio of the financial result (after taxation) received by operating credit institutions for the 12 months preceding the reporting date to the average chronological size of credit institutions' assets for the same period.

Return on balance sheet capital — this indicator is calculated as the ratio of the financial result (after taxation) received by operating credit institutions for the 12 months preceding the reporting date to the average chronological size of credit institutions' balance sheet capital for the same period.

Individuals' funds (deposits) — deposits and other funds accepted by credit institutions (including savings certificates), outstanding obligations under deposit and other borrowing arrangements, funds in individuals' other accounts (residents' and non-residents' funds in both rubles and foreign currency). This indicator does not include the funds of individual entrepreneurs, individuals' election funds, transfers from and to the Russian Federation, interest arrears, interest accrued on deposits accounted for in separate accounts and balances of accounts, which cannot be classified unambiguously.

The data source is reports filed by Russian operating credit institutions under Form 0409101 'The Trial Balance of a Credit Institution'.

Corporate clients' funds (deposits and funds in the accounts of non-financial and financial (other than credit) institutions) are deposits and other funds accepted by credit institutions, as well as funds held in settlement and other accounts of non-financial and financial (other than credit) institutions and individual entrepreneurs, including deposit certificates, outstanding obligations under deposits and other borrowing arrangements, funds of individual entrepreneurs (residents' and non-residents' funds in Russian rubles and foreign currency). This indicator does not include the funds of the Federal Treasury, financial bodies and extra-budgetary funds of the Russian Federation, constituent entities of the Russian Federation and local authorities, interest arrears, accrued interest accounted for in separate accounts and balances of accounts, which cannot be classified unambiguously.

The data source is reports filed by Russian operating credit institutions under Form 0409101 'The Trial Balance of a Credit Institution'.

Loans received from the Bank of Russia — debt (overdue debt included) on loans, deposits and other funds received by credit institutions from the Bank of Russia.

The data source is reports filed by Russian operating credit institutions under Form 0409101 'The Trial Balance of a Credit Institution'.

Table 4.1.8

Financial Performance of Credit Institutions

General Provisions

The table includes indicators characterizing the financial performance of operating credit institutions for a period from the beginning of the current year, provides data on the number of operating credit institutions that have received profits (sustained losses) for the current year, and also reflects the dynamics of the banking sector's financial results. The financial results of credit institutions for previous years are not taken into account.

Beginning on 1 November 2020, these indicators are calculated based on net profit (profit after tax).

The data are provided on operating credit institutions. The data are based on the financial statements of Russia's operating credit institutions submitted in accordance with Form O409101 'The Trial Balance of a Credit Institution' in accordance with Bank of Russia Ordinance No. 4927-U, dated 8 October 2018, 'On the List, Forms and Procedure for Compiling and Presenting Credit Institutions Reporting Forms to the Central Bank of the Russian Federation'.

Individual Indicators Highlights

Total profit (+) / loss (-) is calculated by summing up the incomes received net of the expenses and profit tax of operating credit institutions over the period under review. Profit (loss) is accumulated through the year.

Profit made by profit-making credit institutions is calculated by summing up the incomes received net of the expenses and profit tax of operating credit institutions that had profit in the period under review. Profit is accumulated through the year.

Share of profit-making credit institutions is the share of credit institutions that made profit or posted a zero result from their activities in the period from the beginning of the year under review in the total number of operating credit institutions registered in the Russian Federation.

Loss of loss-making credit institutions is calculated by summing up the incomes received net of the expenses and profit tax of operating credit institutions that incurred losses in the period under review. Loss is accumulated through the year.

Share of loss-making credit institutions is the share of credit institutions that incurred net loss in the period from the beginning of the year under review in the total number of operating credit institutions registered in the Russian Federation.

Subsection 4.2. Borrowings

Table 4.2.1
**Ruble, Foreign Currency and Precious Metals-
Denominated Budget Funds in Accounts
of Credit Institutions**

General Provisions

This table contains data on the Russian Federation on the accounts of federal, regional and local budget funds and extra-budgetary funds.

The source of information is reports compiled by Russian credit institutions (including nonbanking credit institutions and State Development Corporation VEB.RF) (further – credit institutions) in the form O409302 'Information on Borrowings' in compliance with Bank of Russia Ordinance No. 4927-U, dated 8 October 2018, 'On the List, Forms and Procedure for Compiling and Presenting Credit Institutions Reporting Forms to the Central Bank of the Russian Federation'.

This information is available on the Bank of Russia's website.

Individual Indicators Highlights

Federal budget funds are treasury accounts balances of the federal budget funds, Ministry of Finance funds transferred to finance capital investment and funds available for settlements on separate operations.

Regional and local budget funds are treasury accounts balances of the regional budgets and local budgets.

Other budget funds are total funds of election commissions, funds for temporary use by budget-financed institutions, Ministry of Finance funds for other settlements on foreign loans, customs duties and foreign trade receipts.

Extra-budgetary funds are total government and other extra-budgetary funds on accounts with credit institutions: the Pension Fund, the Social Insurance Fund, the Federal and Territorial Obligatory Medical Insurance Funds, Social Support Fund and the regional and local governments' extra-budgetary funds.

Table 4.2.2
**Funds (Deposits) of Individuals
Accepted by Credit Institutions**
Table 4.2.3
**Funds of Legal Entities
Accepted by Credit Institutions**

General Provisions

These tables present data on one of the major transactions in liabilities, namely, funds accepted by credit institutions in rubles and foreign currency from legal entities and individuals to deposits. Data are broken down by maturity, according to the maturities of deposits and other funds accepted by credit institution specified in the agreement, including all addenda thereto. The tables show total account balances accepted by credit institutions to deposits. The data compilation methodology for the information in these tables differs from that used for similar data in the 'Credit Institutions Survey' table, which is used for the analysis of money supply and its structure. The data in tables 4.2.2 and 4.2.3 do not cover deposits of legal entities and individuals with Vnesheconombank, which is not on the list of operating credit institutions, but include funds accepted from non-residents. They also do not cover accrued interest. Differences in individual indicators can be found below.

The table 'Funds of Legal Entities Accepted by Credit Institutions' contains data on deposits and other funds accepted, including individual entrepreneurs' deposits. Funds raised from credit institutions are presented including loans, deposits, and other raised funds. Individual entrepreneurs' deposits are also shown separately (memo item).

The data source is reports filed by Russian operating credit institutions under Form O409101 'The Trial Balance of a Credit Institution' in accordance with Bank of Russia Ordinance No. 4927-U, dated 8 October 2018, 'On the List, Forms and Procedure for Compiling and Presenting Credit Institutions' Reporting Forms to the Central Bank of the Russian Federation'.

Individual Indicators Highlights

Currency deposits by maturity – cash and non-cash funds in Russian or foreign currency placed by legal entities and individuals (both residents and non-residents) with credit institutions under bank deposit agreements or bank account agreements (including savings / deposit certificates). The tables provide a breakdown of deposits by type of depositors (individuals and legal entities (corporate clients and government authorities)) and by maturity. These indicators do not include funds in legal entities' settlement accounts and individual entrepreneurs' accounts, the funds of individuals' election funds, transfers from and to the Russian Federation, interest arrears, accrued interest on deposits accounted for in separate accounts, and balances of accounts which cannot be classified unambiguously.

Demand deposits are funds that must be returned (paid out) at first notice (on demand deposit terms) and funds that must be returned (paid out) upon the onset of the condition (event) provided for in the agreement, whose specific date is unknown (on the terms 'upon the onset of the condition (event)').

Time deposits are deposits taken by a credit institution on the condition that they will be returned upon the expiry of the time period established by the agreement. Interest rates on time deposits are set by credit institution deposit agreements.

Deposits of individuals are deposits and other funds accepted by credit institutions from individuals (including savings certificates), unfulfilled obligations under deposit-taking and other borrowing arrangements and funds in individuals' other accounts. This indicator does not include the funds of individual entrepreneurs, individuals' election funds and transfers from and to the Russian Federation.

Deposits and other funds raised from legal entities are deposits and other funds raised (on demand or for a specified term) from government authorities and extra-budgetary funds of all levels, as well as corporate clients (financial (other than credit) and non-financial institutions of any form of incorporation (including certificates of deposit), and individual entrepreneurs),

as well as unfulfilled obligations under deposit and other borrowing arrangements.

Deposits of individual entrepreneurs are deposits, including unfulfilled obligations under these deposits, of individuals engaged in entrepreneurial activities without registering as a legal entity.

Loans, deposits and other funds accepted from credit institutions are deposits, loans and other funds raised from non-resident credit institutions and banks.

Table 4.2.4
Weighted Average Interest Rates on Deposits of
Individuals and Nonfinancial Organizations in Rubles
Table 4.2.5
Weighted Average Interest Rates on Deposits
of Individuals and Nonfinancial Organizations
in US Dollars and Euros

General Provisions

The tables contain weighted average interest rates of deposits (excluding the State Development Corporation VEB.RF), and including non-bank credit institutions that are licensed to perform loan and deposit operations (hereinafter, credit institutions), which are borrowed by credit institutions from individuals and nonfinancial organizations (excluding individual entrepreneurs since January 2016) in rubles, in US dollars and in euros. The data are presented with a breakdown by maturity.

The source of information is the Reporting Form 0409129 'Weighted Average Interest Rates Funds offered by Credit Institutions' compiled by credit institutions in accordance with the Bank of Russia Ordinance No. 4927-U, dated 8 October 2018, 'On the List, Forms and Procedure for Compiling and Presenting Credit Institutions Reporting Forms to the Central Bank of the Russian Federation'.

This information is available on the Bank of Russia's website.

Individual Indicators Highlights

Weighted average interest rates on deposits by individuals / nonfinancial organizations are weighted average annual interest rates on deposits in the reporting month and are calculated by the formula:

$$\bar{p} = \frac{\sum PV}{\sum V}, \text{ where}$$

\bar{p} – weighted average deposit interest rate;

$V1...n$ – amount of a deposit as included in an agreement;

$P1...n$ – nominal annual deposit interest rate as included in an agreement.

The values of weighted average interest rates and corresponding turnovers are not calculated in case there are data on less than three credit institutions.

Table 4.2.6
Savings (Deposit) Certificates, Bonds
and Bills of Exchange Issued by Credit Institutions

General Provisions

The table contains data on ruble and foreign currency funds raised by credit institutions by issuing debt securities (deposit and savings certificates, bonds and bills). Nominal values of deposit and savings certificates and bonds are provided with a breakdown by maturity. If there is no information on the values of certificates and bonds with specific maturities, this means that no funds under these securities with these maturities were raised over the periods reviewed in the table. This table does not include obligations to pay interest and coupon accrued on issued securities.

The data source is reports filed by Russian operating credit institutions under Form 0409101 'The Trial Balance of a Credit Institution' in compliance with Bank of Russia Ordinance No. 4927-U, dated 8 October 2018, 'On the List, Forms and Procedure for Compiling and Presenting Credit Institutions' Reporting Forms to the Central Bank of the Russian Federation'.

Individual Indicators Highlights

Savings / deposit certificate – a kind of time deposit (see the commentary to the indicator 'Time deposits' in the tables 'Deposits of Individuals Accepted by Credit Institutions' and 'Funds of Organizations Accepted by Credit Institutions') and a security that certifies the amount of a deposit made with a credit institution and the right of the depositor (certificate-holder) to receive, upon the expiry of the agreed term, the deposit and interest indicated in the certificate of the credit institution that issued the certificate or any of its branches. Savings certificates (certificates of deposit) are denominated in rubles. For more detailed information about savings certificates and certificates of deposit, see the Regulation 'On Savings and Deposit Certificates Issued by Credit Institutions', approved by Bank of Russia Ordinance No. 333-U, dated 31 August 1998. In the tables 'Deposits of Individuals Accepted by Credit Institutions' and 'Funds of Legal Entities Accepted by Credit Institutions', the savings certificates and certificates of deposit are included in individuals' and organizations' deposits, respectively.

Bond is a financial security certifying the holder's right for receiving, in due time, the nominal value of the bond or some other tangible equivalent from the bond issuer. Bonds also provide fixed interest payments or some other tangible equivalent.

Bill is a direct financial liability that is completed in a legally prescribed form and issued by a promisor to a bill holder and gives the latter the unconditional right to make claims to the promisor in terms of the specific amount, time and place.

Banking bill of exchange is a bill that is mainly used for raising funds by a credit institution.

Acceptance is an agreement on the repayment of a bill of exchange that imposes the relevant obligation on the acceptor.

Bank acceptance is a bill secured by the credit institution's unconditional obligation to pay a specific amount after a certain period (as accepted by the credit institution).

Subsection 4.3. Lending

Table 4.3.1
Loans, Deposits, and Other Funds Provided to
Corporate Clients, Individuals and Credit Institutions

General Provisions

The table shows data covering major investment activity of banks, that is, extending loans, deposits, and other funds to resident and non-resident clients. The data show lending account balances as of the reporting date with a breakdown by currency (rubles and foreign currency), borrower type (individuals, legal entities, and credit institutions) and loan maturity (as indicated in credit agreements).

The data source is reports filed by Russian operating credit institutions under Form 0409101 'The Trial Balance of a Credit Institution' in compliance with Bank of Russia Ordinance No. 4927-U, dated 8 October 2018, 'On the List, Forms and Procedure for Compiling and Presenting Credit Institutions' Reporting Forms to the Central Bank of the Russian Federation'.

Individual Indicators Highlights

Loans and other funds provided into corporate clients (non-financial and financial (other than credit) institutions and individual entrepreneurs) and individuals – amounts borrowed by clients from credit institutions on all of these categories of funds, including overdue debt. In addition to amounts borrowed by individuals and corporate clients, the total includes loans extended to foreign governments, as well as debt and arrears on operations with precious metals, other than operations with credit institutions.

Loans and other funds provided to individuals are amounts borrowed from credit institutions by resident and non-resident individuals (other than individual entrepreneurs), including overdue debt.

Loans and other funds provided to corporate clients, by maturity – amounts borrowed on all loans and other placements

by financial (other than credit) and non-financial institutions of any form of incorporation and individual entrepreneurs, both residents and non-residents, excluding overdue debt. (The structure of financial (other than credit) institutions and non-financial organizations corresponds to the concepts 'other financial institutions' and 'non-financial organizations' in the notes to the table 'Central Bank Survey'). Loans provided for up to 30 days include on-demand and overdraft loans (an overdraft loan is a loan extended to a borrower who has a shortage of funds available in its current account).

Loans, deposits and other funds provided in rubles and foreign currency to credit institutions are amounts borrowed, deposits and other funds provided to other banks and credit institutions, including overdue debt.

Table 4.3.2
Outstanding Amounts of Loans and Other Funds
Granted to Corporate Clients and Individuals
by Credit Institutions

General Provisions

The table includes indicators characterizing overdue debt on loans and other funds granted by credit institutions to corporate clients and individuals, as well as total outstanding amounts on these funds.

The data source is reports of Russian operating credit institutions compiled under Form 0409101 'The Trial Balance of a Credit Institution' and submitted in compliance with Bank of Russia Ordinance No. 4927-U, dated 8 October 2018, 'On the List, Forms and Procedure for Compiling and Submitting Credit Institutions' Reporting Forms to the Central Bank of the Russian Federation'.

Individual Indicators Highlights

Outstanding amounts of loans and other funds granted to corporate clients are outstanding amounts (including overdue debt) of non-financial and financial (other than credit) institutions and individual entrepreneurs, both residents and non-residents, to credit institutions on all loans and other funds placed in Russian rubles, foreign currency, and precious metals.

Outstanding amounts of loans and other funds granted to individuals are outstanding amounts (including overdue debt) of resident and non-resident individuals to credit institutions on all loans and other funds in Russian rubles and foreign currency. Loans and other funds granted to individual entrepreneurs are not included in this indicator.

Overdue debt on loans and other funds are outstanding amounts on past due loans, deposits, and other placed funds granted to a relevant category of borrowers (non-financial organizations or individuals) in Russian rubles and foreign currency. Amounts of overdue interest are not included in the calculation of overdue debt indicators.

Housing Loans Granted to Resident Individuals

Table 4.3.11

Mortgage Loans Granted to Resident Individuals and Acquired Claims Thereon

Table 4.3.12

Mortgage Loans Granted to Resident Individuals Against the Pledge of Claims Under Share Construction Participation Agreements

General Provisions

These tables show data on housing loans / mortgage loans / mortgage loans against the pledge of claims under share construction participation agreements granted by credit institutions to resident individuals in rubles and foreign currency.

The category of housing loans granted to individuals comprises the following loans:

- loans granted for the purchase and development of land for housing construction;
- loans granted to finance construction;
- loans granted to buy housing.

The category of mortgage loans comprises housing loans granted to resident individuals against the collateral of real estate according to the procedure established by the Federal Law on Mortgage (real estate mortgage).

The category of mortgage loans against the pledge of claims under share construction participation agreements comprises mortgage loans granted to resident individuals according to the procedure established by the Federal Law about participation in share construction of apartment houses and other real estate objects and about modification of some legal acts of the Russian Federation.

The source of information has been the reports compiled by credit institutions in form 0409316 'Information on Granted Funds to Individuals', established by Bank of Russia Ordinance No. 4927-U, dated 8 October 2018, 'On the List, Forms and Procedure for Compiling and Presenting Credit Institutions Reporting Forms to the Central Bank of the Russian Federation'.

This information is available on the Bank of Russia's website.

Individual Indicators Highlights

Volume of housing loans / mortgage loans / mortgage loans against the pledge of claims under share construction participation agreements granted to resident individuals is the amount of funds provided during the reporting period under credit agreements (additional agreements). This indicator is compiled for the reporting period (month).

Debt on housing loans / mortgage loans / mortgage loans against the pledge of claims under share construction participation agreements is the balance of the debt, including overdue debt, on loans as of the reporting date.

Overdue debt on housing loans / mortgage loans / mortgage loans against the pledge of claims under share construction participation agreements is the balance of overdue debt on loans as of the reporting date.

Weighted average maturity of loans characterizes average maturity of housing loans / mortgage loans / mortgage loans against the pledge of claims under share construction participation agreements granted by credit institutions during the reporting period (month) and is calculated using the following formula:

$$\bar{T} = \frac{\sum TV}{\sum V}, \text{ where}$$

\bar{T} is the weighted average term of credit;

$T1...n$ is the weighted average maturity of loans granted by a credit institution No. 1...n;

V is the value of loans granted by a credit institution No. 1...n.

Weighted average interest rate on loans characterizes average interest rates on housing loans / mortgage loans / mortgage loans against the pledge of claims under share construction participation agreements granted by credit institutions during the reporting period (month) and is calculated using the following formula:

$$\bar{P} = \frac{\sum VPT}{\sum VT}, \text{ where}$$

\bar{P} is the weighted average interest rate;

$P1...n$ is the weighted average interest rate on loans granted by a credit institution No. 1...n;

$V1...n$ is the value of loans granted by a credit institution No. 1...n;

$T1...n$ is the weighted average maturity of loans granted by a credit institution No. 1...n.

Rights of claim under mortgage loans acquired is the balance of the debt on rights of claim under mortgage loans acquired by credit institutions as of the reporting date.

Table 4.3.13

Investment Portfolio of Credit Institutions

General Provisions

The table shows the values of credit institutions' investments in securities except bills of exchange, such as debt and equity securities. The data do not include checks, warehouse certificates and bearer passbooks. The table also shows information on credit institutions' participation in the authorized capital of subsidiary and affiliated joint-stock companies and other organizations.

The source of information is reports compiled by operating credit institutions of the Russian Federation according to Form 0409101 'The Trial Balance of a Credit Institution' and submitted in compliance with Bank of Russia Ordinance No. 4927-U, dated 8 October 2018, 'On the List, Forms and Procedure for Compiling and Presenting Credit Institutions' Reporting Forms to the Central Bank of the Russian Federation'.

Starting from data as of 1 February 2019, the indicators provided including revaluation also include value adjustment according to the Chart of Accounts for Credit Institutions (Bank of Russia Regulation No. 579-P, dated 27 February 2017).

Individual Indicators Highlights

Gross investments in debt securities (including loss provisions, revaluation and cost adjustment) are credit institutions' investments in debt obligations that are classified as securities under Russian law (debt securities of the Russian Government, the Bank of Russia, regional and local governments, resident credit institutions, and resident organizations other than credit institutions; securities that are backed to repurchase agreements (repos) and not qualify for derecognition; and non-residents' securities, other than bills of exchange, that are considered securities under the law of the issuer's country). These investments include securities that are booked at their fair value through profit or loss, or through other comprehensive income, booked at amortized cost, as well as those not redeemed in due time, denominated in Russian rubles or foreign currency. Debt securities booked at fair value are recognized including revaluation.

Gross investments in equity securities (including loss provisions, revaluation and cost adjustment) — investments in shares, units, and any other securities that in accordance with the law of the issuer's country entitle their holder to a stake in the organization's property and (or) net assets (residual interest in assets remaining after deducting all its liabilities).

Investments in equity securities include equity securities booked at fair value through profit or loss, as well as equity securities booked at fair value through other comprehensive income, denominated in Russian rubles or foreign currency.

Debt (equity) securities transferred without derecognition are securities transferred to counterparties without derecognition under repo transactions.

Unpledged debt (equity) securities at balance-sheet value (excluding revaluation and cost adjustment) – credit institutions' investments in debt securities (excluding revaluation and cost adjustment), except securities transferred to counterparties without derecognition under repo transactions.

Table 4.4
Credit Institutions' Liabilities and Claims
on Financial Derivatives

General Provisions

The table presents data on the fair value of financial derivatives (claims and liabilities).

Derivative Financial Instrument is a claim, if the overall estimated value of contractual claims on a counterparty exceeds corresponding overall estimated value of contractual liabilities on the same counterparty and a credit institution expects an increase in future economic benefits resulting from the receipt of assets (cash and other property), exchange of assets or liabilities' redemption on the potentially favourable conditions for the credit institution.

Derivative Financial Instrument is a liability, if the overall estimated value of a credit institution's contractual liabilities on a counterparty exceeds corresponding overall estimated value of contractual claims on the same counterparty and the credit institution expects a decrease in future economic benefits resulting from the retirement of assets (cash and other property), exchange of assets or liabilities' redemption on the potentially unfavourable conditions for the credit institution.

The data source is reports of operating credit institutions compiled under Form 0409101 'The Trial Balance of a Credit Institution' and submitted in compliance with Bank of Russia Ordinance No. 4927-U, dated 8 October 2018, 'On the List, Forms and Procedure for Compiling and Submitting Credit Institutions' Reporting Forms to the Central Bank of the Russian Federation'.

Subsection 4.5. Main Indicators of Subjects of Collective Investments and Insurance Business Performance

Table 4.5.1
Main Indicators of Private Pension Funds'
Performance

General Provisions

The table performance in private pension provision and mandatory pension insurance. The table features private pension funds licensed to engage in pension provision and pension insurance.

The indicators are derived from data contained in OKUD Form 0420254 'Statement of Private Pension Provision' and Form 0420255 'Statement of Mandatory Pension Insurance' approved by Bank of Russia Ordinance No. 4623-U, dated 27 November 2017, 'On the Form, Timeframe and Procedure for Compiling and Submitting to the Bank of Russia Operating Statements, Including the Requirements for Statements on Mandatory Pension Insurance by Non-Governmental Pension Funds'.

Individual Indicators Highlights

Pension reserves mean total funds owned by the Fund and intended to finance the Fund's obligations to its pension scheme participants under respective pension agreements. They include reserves to cover pension obligations and a premium reserve.

Pension reserves are made up of:

- pension contributions;
- returns on investment of pension reserves;
- earmarked receipts;
- other assets designated by the Board of Directors (Supervisory Board) of the Fund.

Number of participants means the number of individuals entitled to receive or actually receiving private pensions under their respective pension agreements.

Number of participants receiving pension means the number of individuals receiving private pension as of the end of the reporting period.

Payouts of pensions under private pension provision mean cash regularly paid to participants pursuant to their pension agreements.

Starting from 2016 Q1, indicator Number of Personal Accounts in the Registers of Investment Fund Shareholders is replaced with indicator Number of Holders of Investment Shares in Unit Investment Funds in order to provide reliable information on the actual number of holders of investment shares in funds (including holders whose rights for investment shares are accounted for in nominal holders' accounts, and excluding zero personal accounts in the registers of investment fund shareholders).

Indicator **Value of Net Assets of Unit Investment Funds** reflects the aggregate value of net assets of operational unit investment funds.

Indicator Issue of Investment **Shares of Unit Investment Funds** reflects the aggregate amount of issued investment shares of unit investment funds in the reporting period (the first quarter, the first six months, the first nine months and a year). The indicator is shown as accrued year-to-date total.

Indicator **Redemption of Investment Shares of Unit Investment Funds** reflects the aggregate amount of redeemed investment shares of unit investment funds in the reporting period (the first quarter, the first six month, the first nine months and a year). The indicator is shown as accrued year-to-date total.

Table 4.5.5

Insurers' Premiums and Payoffs by Type of Insurance**General Provisions**

The table reflects volumes of insurance premiums and benefits by type of insurance over the reporting period.

The indicators of insurers are compiled on the basis of regular statistical reporting provided by insurance companies to the Bank of Russia in accordance with Law of the Russian Federation No. 4015-1, dated 27 November 1992, 'On the Organization of Insurance Business in the Russian Federation'.

Sources of the insurers' indicators are data from quarterly statistical reporting form 0420162 'Data on the Activity of Insurers' approved by Bank of Russia Ordinance No. 6315-U, dated 14 November 2022, 'On the Forms, Timeframe and Procedure for Compiling and Submitting Insurance Companies' Reporting to the Bank of Russia'.

Individual Indicators Highlights

Indicator **Insurance Premiums** reflects payment for insurance that the insured (beneficiary) has to pay to the insurer in the manner and in the timeframe specified in the insurance contract. It includes the amount of insurance premiums specified in insurance contracts over the reporting period (as amended, including the refund of insurance premiums).

Indicator **Payoffs** reflects a cash amount determined according to the procedure prescribed in the federal legislation and (or) in the insurance contract, to be paid by the insurer to the insured, insured person or beneficiary upon the occurrence of an insured event (insurance benefit), and other payouts under insurance contracts.

Section 5. Selected Indicators on the Russian Federation's Payment System

Table 5.1
Selected Indicators
on Payment Card
Transactions

General Provisions

The table shows the dynamics of transactions with payment cards issued by credit institutions and the Bank of Russia, which are made by customers in and outside the territory of the Russian Federation, disaggregated for individuals and legal entities.
