On publishing AWS of a BoR Customer-FMS

### Information notice

The Payment System Operation Centre of the Information Technology Department of the Bank of Russia (hereinafter, 'PSOC ITD') informs exchange participants (hereinafter, 'EPs') that a new version of AWS of a BoR Customer-FMS has been published on the Bank of Russia's website at [www.cbr.ru/eng/development/mcirabis/involve\\_spfs/](http://www.cbr.ru/eng/development/mcirabis/involve_spfs/):

- AWS of a BoR Customer-FMS version 2020.4.2 (file name: 'spfs2020.4.2.rar') (hereinafter, 'BoR Customer software');

What is new:

- the acceptance of information messages received from the transport gateway via the MQ protocol and placed in DIME was removed;
- schemes for ISO20222 format attachments ED513 'Envelope for ISO CTCCR format messages for currency control purposes' were updated.

Please be aware that each folder extracted from the '\*.rar' archive contains 'hash.txt' and '\*.zip' files. The 'hash.txt' file contains a list of the controlled files of the BoR Customer software and a hash code calculated with the hash algorithm in accordance with GOST R 34.11-2012.

The archives were created with WinRAR 5.50.

PSOC ITD also reminds you that when the BoR Customer software is sent to EPs using the Bank of Russia Transport Gateway to Exchange Payment and Financial Messages with Customers of the Bank of Russia (the 'BoR Customer TG'), two information messages will be dispatched: a notification (about dispatching a new version of the BoR Customer software) and a miscellaneous message with recommendations on

how to check the integrity of the BoR Customer software. The miscellaneous message will not be published on the Bank of Russia's website.

The concurrent testing of the BoR Customer software at the CDPC-level RABIS-NP sub-systems test stand is available from 26 October 2020.

The deadline for the transition to the new version of the BoR Customer software is 21 November 2020.

This message will be published on the Bank of Russia's website at [www.cbr.ru/eng/development/mcirabis/involve\\_spfs/](http://www.cbr.ru/eng/development/mcirabis/involve_spfs/).
