On publishing a new version of AWS of a BoR
Customer-FMS

Information notice

The Payment System Operation Centre of the Information Technology Department of the Bank of Russia (hereinafter, 'PSOC ITD') informs exchange participants (hereinafter, 'EPs') that a new version of AWS of a BoR Customer-FMS has been published on the Bank of Russia's website (www.cbr.ru/eng/development/mcirabis/involve_spfs/):

– AWS of a BoR Customer-FMS version 2021.1.1 ('spfs2021.1.1.rar') (hereinafter, 'BoR Customer software').

What's new:

- improved mode of piece-by-piece reception of EMs from BoR Customer TG in connection with the updated BoR Customer TG interface;
- updated printed form of the protocol – protocol date, computer name, and user name were added to the header.

Please be aware that the folder extracted from the '*.rar' archive contains 'hash.txt' and '*.zip' files. The 'hash.txt' file contains the list of the controlled files of the BoR Customer software and a hash code calculated with the hash algorithm in accordance with GOST R 34.11-2012.

The archive was created with WinRAR 5.50.

PSOC ITD also reminds you that when the BoR Customer software is sent to EPs using the Bank of Russia Transport Gateway to Exchange Payment and Financial Messages with Customers of the Bank of Russia (the 'BoR Customer TG'), two information messages will be dispatched: a notification (about dispatching new versions

of the BoR Customer software) and a miscellaneous message with recommendations on how to check the integrity of the BoR Customer software.

BoR Customer software version 2021.1.1 will be available for concurrent testing of the CDPC-level RABIS-NP sub-systems immediately upon the receipt of BoR Customer software.

Deadline for transition to the new versions of BoR Customer software and UFEBM Album version 2021.1.1: from 1 January 2021 until the first operating day of 2021.

This message will be published on the Bank of Russia's website at www.cbr.ru/eng/development/mcirabis/involve_spfs/
