

New version of the software package ‘AWS of a BoR Customer-FMS’ and its documentation available

To heads of organisations participating in the electronic exchange with the Bank of Russia
(4525000829, 4525000821, 4525000833, 4525000831, 4525000832)

Information notice

The Payment System Operation Centre of the Information Technology Department of the Bank of Russia (hereinafter, ‘PSOC ITD’) informs exchange participants (hereinafter, ‘EPs’) that a new version of AWS of a BoR Customer-FMS has been published on the Bank of Russia’s website www.cbr.ru/eng/development/mcirabis/involve_spfs/:

- AWS of a BoR Customer-FMS, version 2021.2.0 (‘spfs2021.2.0.rar’) and operation manuals:
- kbr-spfs_admin.rar – ‘AWS of a BoR Customer-FMS. Administrator’s guide.docx’;
- kbr-spfs_programmer.rar – ‘AWS of a BoR Customer-FMS. Programmer’s guide.docx’;
- kbr-spfs_op.rar – ‘AWS of a BoR Customer-FMS. Use description.docx’ (hereinafter, BoR Customer software).

What is new:

- Support of the UFEBM Album version 2021.2.1 was added.
- The visualisation of the AWS version upon launching was changed.
- Initial configuration upon the AWS update was disabled.

Changes to the operation manuals:

The document ‘AWS of a BoR Customer-FMS. Administrator’s guide.docx’ was changed as follows: Windows 10 OS was added to Section 3.1.2 ‘Software requirements’; the footnote ‘The new message exchange mode will be available after appropriate updates in the Bank of Russia Transport Gateway’ was deleted from Section 5.1.10.

The document 'AWS of a BoR Customer-FMS. Programmer's guide.docx', Section 2.2 was changed as follows:

- kbr.Print.dll was added to the list of user interface and EM processing modules;
- kbr.IbmMQTransport.dll and kbr.Mq.dll were added to the list of basic system services of AWS of a BoR Customer-FMS;
- kbr.Print.resources.dll and kbr.Transport.resources.dll were added to the bin\en subdirectory which conform to the AWS modules of the user interface library.

The document 'AWS of a BoR Customer-FMS. Use description.docx' was changed as follows: Windows 10 OS was added to Section 1.3.2 'Software'.

Please be aware that the folder extracted from the '*.rar' archive contains 'hash.txt' and '*.zip' files. The 'hash.txt' file contains a list of the controlled files of the BoR Customer software and a hash code calculated with the hash algorithm in accordance with GOST R 34.11-2012.

The archive was created with WinRAR 5.50.

PSOC ITD also reminds you that when the BoR Customer software is sent to EPs using the Bank of Russia Transport Gateway to Exchange Payment and Financial Messages with Customers of the Bank of Russia (the 'BoR Customer TG'), two information messages will be dispatched: a notification (about dispatching new versions of the BoR Customer software) and a miscellaneous message with recommendations on how to check the integrity of the BoR Customer software.

The concurrent testing of the BoR Customer software, version 2021.2.0 at the CDPC-level RABIS-NP sub-systems test stand is available from 22 February 2021.

The deadline for the transition to the new versions of the BoR Customer software and the UFEBM Album version 2021.2.1 is 22 March 2021.

This message will be published on the Bank of Russia's website at www.cbr.ru/eng/development/mcirabis/involve_spfs/.
