

To heads of organisations
participating in the electronic
exchange
with the Bank of Russia
(4525000829, 4525000821,
4525000833, 4525000831,
4525000832)

New version of the software package
'AWS of a BoR Customer-FMS' and
its operation manuals available

Information notice

The Payment System Operation Centre of the Information Technology Department of the Bank of Russia (hereinafter, 'PSOC ITD') informs exchange participants that a new version of AWS of a BoR Customer-FMS has been published on the Bank of Russia's website www.cbr.ru/eng/development/mcirabis/involve_spfs/:

- AWS of a BoR Customer-FMS version 2021.4.0 (file name: 'spfs2021.4.0.rar')
and operation manuals:

-kbr-spfs_admin.rar – 'AWS of a BoR Customer-FMS. Administrator's guide'.

-kbr-spfs_op.rar – 'AWS of a BoR Customer-FMS. Use description'.

Changes to BoR Customer software are described in the annex hereto.

The concurrent testing of the AWS of a BoR Customer-FMS, version 2021.4.0 at the CDPC-level RABIS-NP sub-system test stand is available from 23 August 2021.

The deadline for the transition to the new versions of the BoR Customer software and the UFEBM Album version 2021.4.2 is 20 September 2021.

This message will be published on the Bank of Russia website at www.cbr.ru/eng/development/mcirabis/involve_spfs/.

Annex: Information about the new version of the software package ‘AWS of a BoR Customer-FMS’ and its operation manuals – 1 page.

Mikhail Shashlov

Deputy Director
Information Technology Department –
Director
Payment System Operation Centre

Information about the new version of the software package 'AWS of a BoR Customer-FMS' and its operation manuals

What is new:

- Support of the UFEBM Album version 2021.4.0 was added;
- Electronic message (EM) storage functioning was optimised;
- EM processing was partially optimised;
- SpfsStgDB.dll build was removed;
- The third sign was added in the milliseconds field in column time in logs;
- The file naming error for ED503 was corrected. The error occurred if the sender was not present in the SWIFT directory;
- EM sorting by date was corrected in the main AWS operator form;
- File naming was corrected when logs are downloaded into a file;
- Log view window was corrected in order to prevent hanging when a large log file is opened;
- The tip for log open button when the window is being closed was corrected.

Changes to the operation manuals:

In 'AWS of a BoR Customer-FMS. Administrator's guide', Section 5.1.12, Fig. 16 was updated by expanding the description of LPO and notifications.

In 'AWS of a BoR Customer-FMS. Use description', in Section 1.3.2, information about IBM WebSphere MQ (IBM MQ C and .NET clients) was corrected.
